

**66.** One of the facts mentioned in the article is that in recent years

- A) the World Economic Forum has not discussed some countries' high stunting rates.
- B) many childhood programs in the UK have been ineffective.
- C) only children in wealthy countries are not at risk of poor development.
- D) the chasm of health inequality between rich and poor has widened.

O parágrafo 11 traz a informação de que o abismo da desigualdade, em se tratando de saúde entre ricos e pobres, aumentou recentemente.

**Item D**
