

**81.** The author also states that the Pantanal is a region which

- A) contains the largest volume of water in South America.
- B) has infinite natural resources no matter what happens.
- C) enthralls mostly European tourists and ecologists.
- D) is among the ones with the greatest biodiversity in our planet.

Assunto: Interpretação textual

No 1º parágrafo, o texto afirma que o Pantanal “is one of the most biodiverse places on Earth”, o que corrobora a alternativa que diz que it “is among the ones with the greatest biodiversity in our planet.”

Item: D
