

The Triangle Party!

7BM - BS

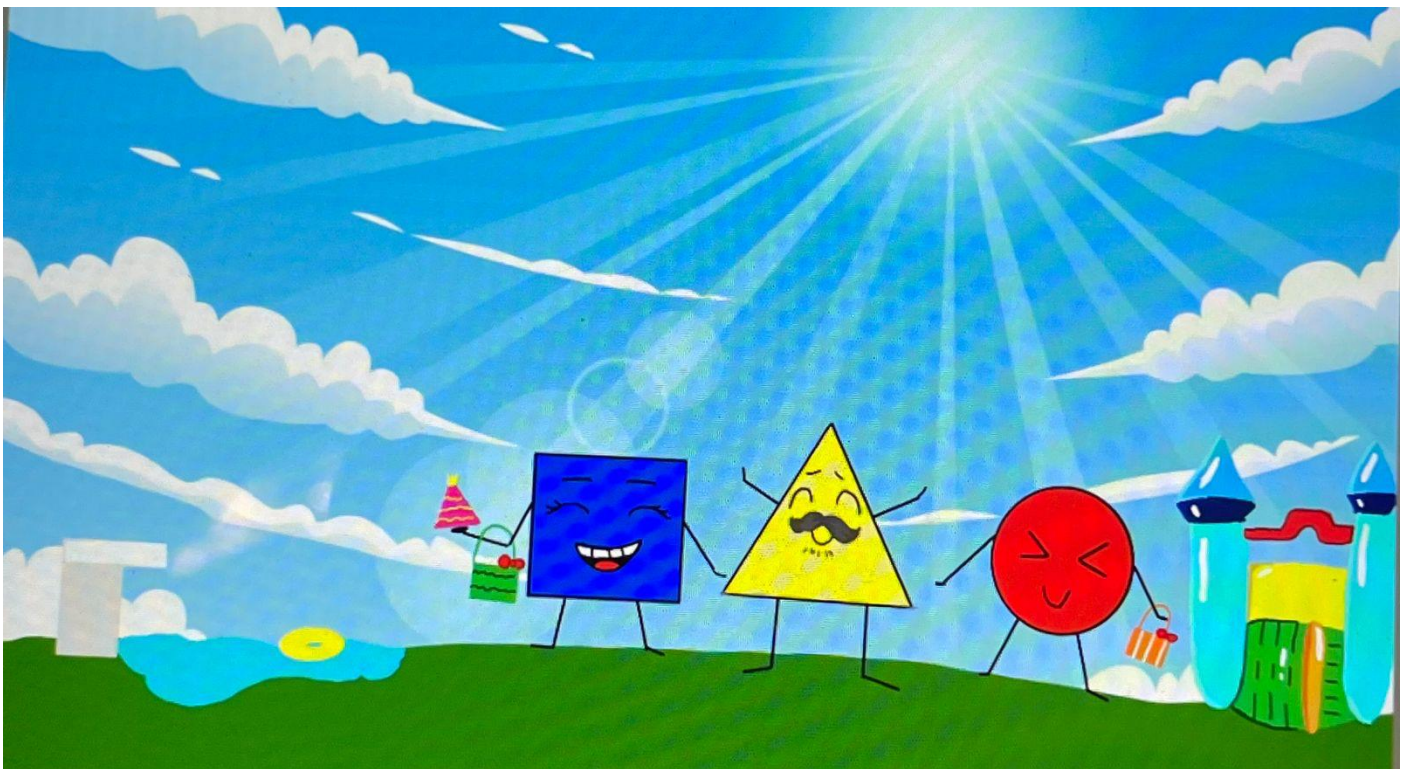

Welcome to our book!

Triangle will be at the mall with their mother, walking while their father receives guests without the Triangle knowing.

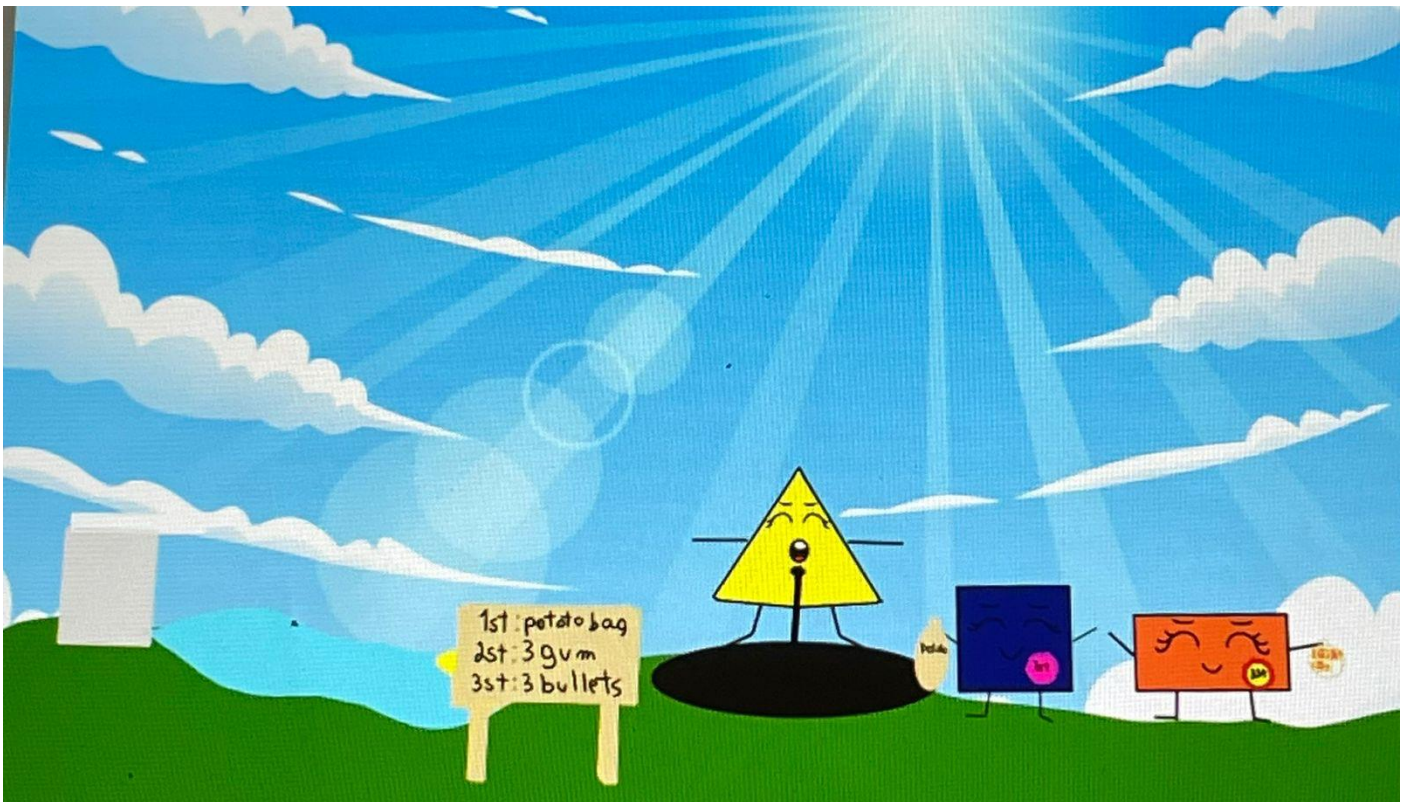

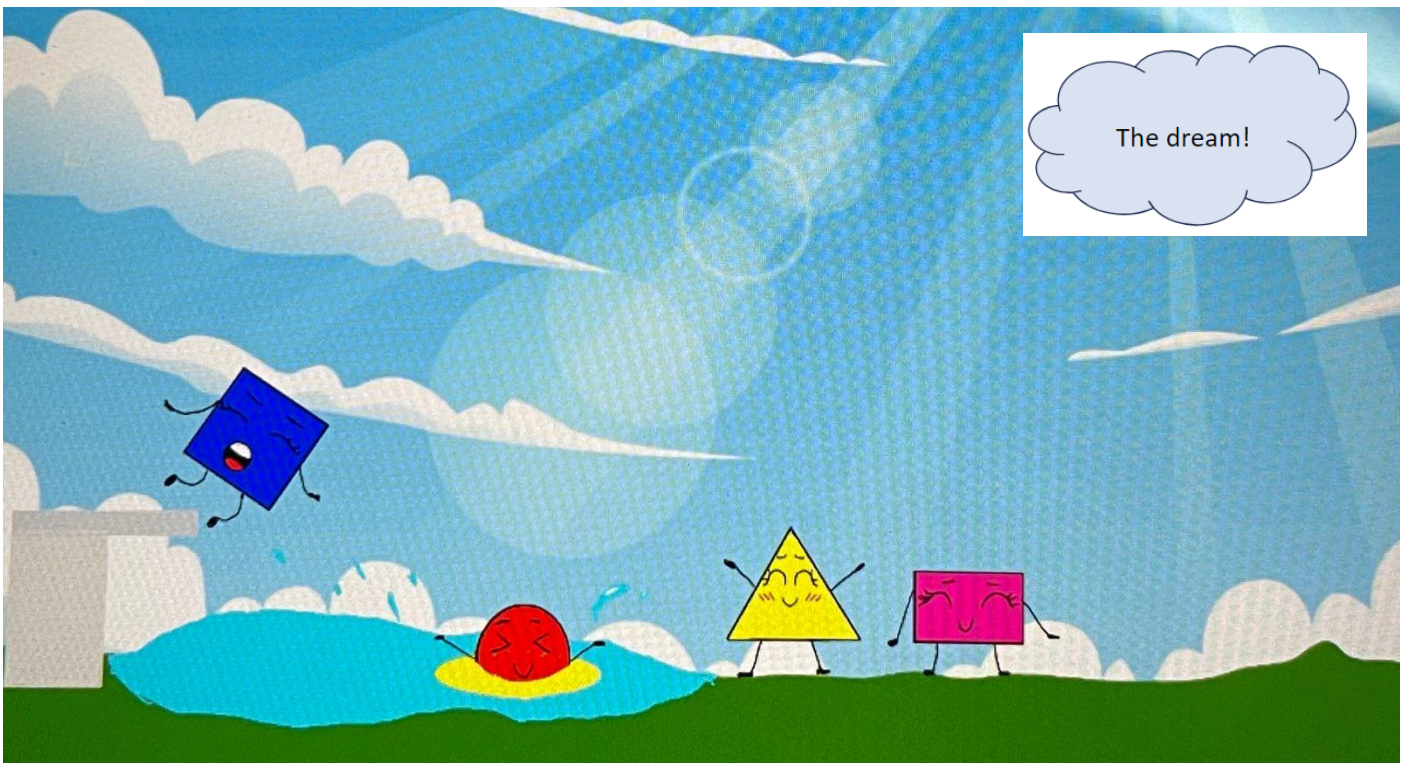

Upon arriving home, the Triangle gets emotional, and everyone sings Happy Birthday and gets ready to go to the pool.

- Then they sang karaoke, each with their favorite songs!
- The Square won first place, the Cylinder second, and the Rectangle third.
- 1st: potato bag
- 2nd: gums
- 3rd: candies

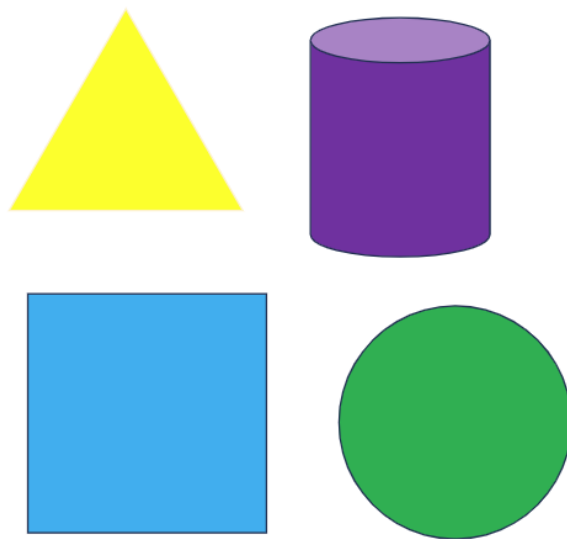

When the party ended, triangle went to sleep and dreamed of another pool party. In this dream, the triangle fulfilled a great wish to have a pool party with all his friends on vacation. In the dream, at this party, there were many toys in which his geometric friends played a lot, including the triangle itself.

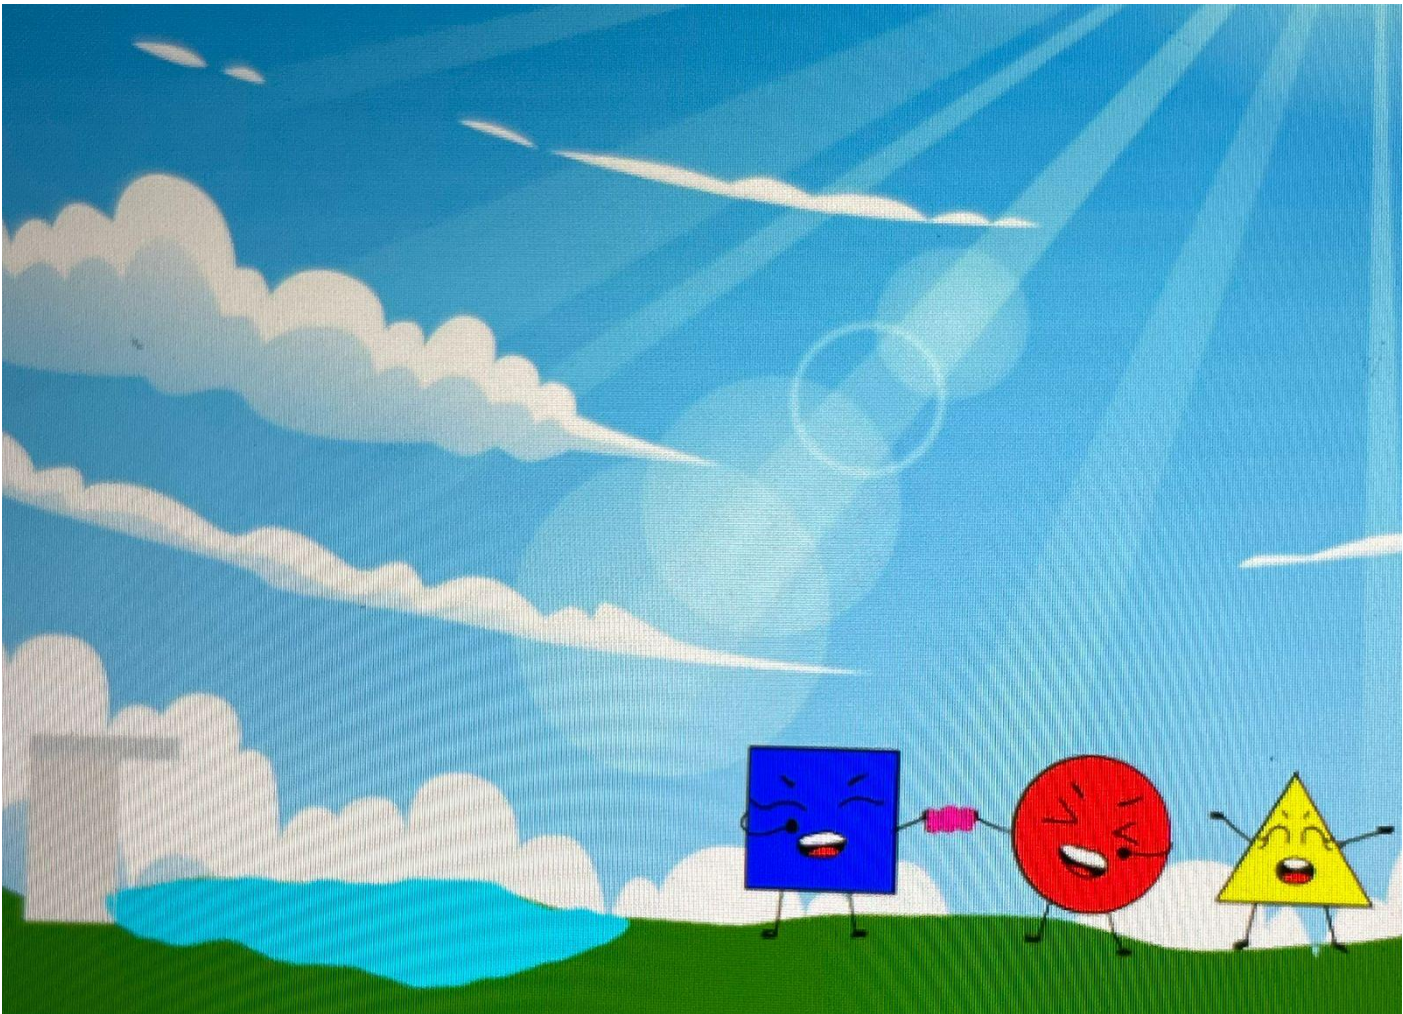

At dusk, they continued to play hide-and-seek, and each geometrical form went to hide in its proper shape: the cylinder in a glass, the square in a box, the circle under a round table, and the Triangle was the seeker.

They had a great time, and then everyone left, and the triangle got their wish to have a pool party.

HIDE AND SEEK!

The End!

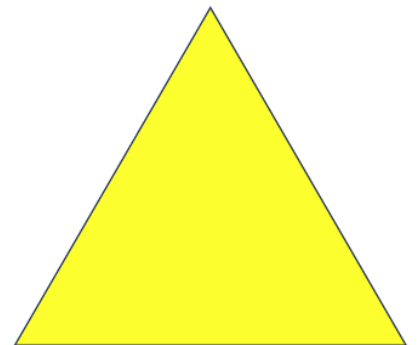

We would like to thank....

...Our teacher Jairo César and coordinator Alana Oliveira for their attention, as well as teacher João Pedro! They helped and supported us. We are very grateful for that! We also want to thank the group of students from our class and congratulate them all on their work. We are very grateful for everyone's support!

Biography

Hello, the authors of this book were the students from 7th grade B from Christus Barão de Sudart. We have worked on this project since the beginning of the current year, and it was a challenge. Everyone worked hard to make this book; we are delighted with the results.

Credits

Outlining and Writing

CAIO CÉSAR SOLANO FEITOSA SOUSA
