

The Coolest Places in Fortaleza

ACKNOWLEDGEMENTS

We are 7th grade Olympic students from Dionisio Torres, and we would like to thank you for this opportunity to produce a book to inspire other children. We wanted to thank our project coordinator and teacher, Christopher, who greatly helped us with this project.

Thank you very much for giving us this chance.

Warm regards from the 7th grade Olympic class.

Hello kids!

Let's talk about cool Places to visit in
Fortaleza!

First place: Beach Park

The first place is called Beach Park. It's super fun, especially with your family. There are toys, water slides, yummy food, a sandy beach, and more! The most exciting toy is the Insano water slide. It's super high and super fast!

Second place: Downtown

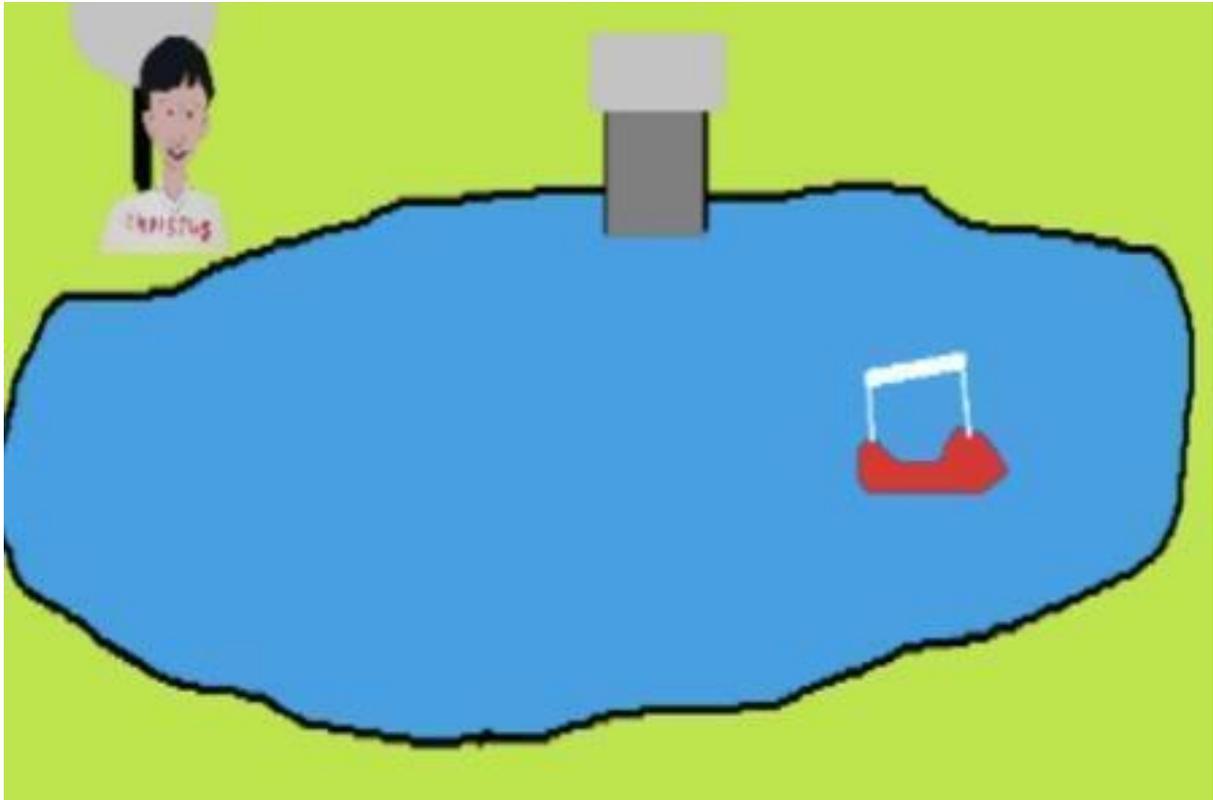

The second place is in the middle of the city. You can find delicious foods at the Dragão do Mar Art and Cultural Center. You can ride your bike there. It is a very cool place to visit.

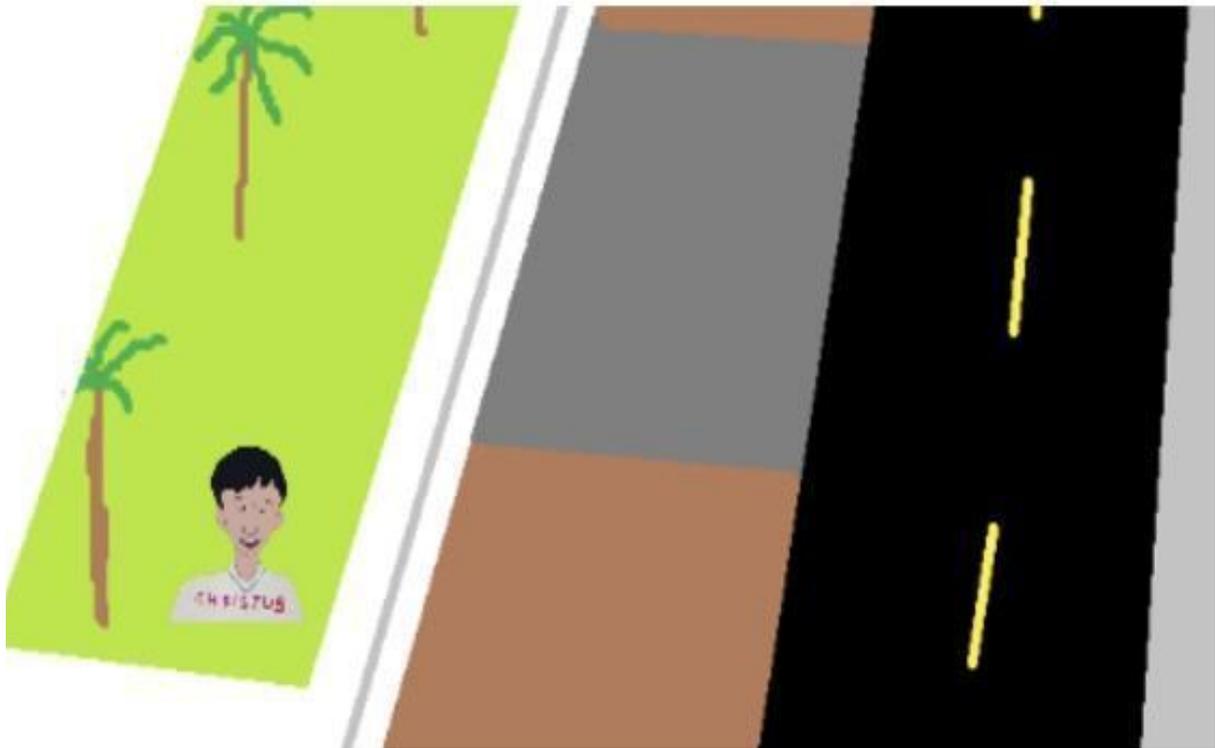

Third place: Cocó Park

Now, let's talk about the third place called Cocó Park. It is a big green park in the city. You can see trees and plants. There are also places to ride your bike. You can see birds and butterflies. It is a good place to picnic with family and friends or play games.

Fourth place: Engenhoca Park

Engenhoca Park is a very good place for you, kids. In its mini zoo, you can see cows, chickens, and other animals. You can swim in the lake, climb on a rope, and go bungee jumping. I love it!

Fifth place: Nossa Senhora da Assunção Fortress

This place is a big castle in the city. You can pretend to be a prince or a princess exploring this place's old walls and towers.

In Fortaleza, kids can have a lot of fun. You can explore beaches, parks and even a castle. There are many cool places to visit in Fortaleza.

CLASS BIOGRAPHY

This book results from the creativity and dedication of the 7th grade Olympic class. Creating this book not only improved our English but also united us even more after a lot of teamwork. Countless hours were spent crafting this story and revising it, trying to make it better and better. And this is the result of our hard work.

We are glad to present our book.

With gratitude,
The 7th Olympic class.
