
THE PARTS OF A HOUSE
7TH Grade B 2026 – Morning
Barão de Studart

ACKNOWLEDGMENTS

We would like to thank our classmates and teacher for supporting us while we wrote this book. It was a team effort, and each of us shared ideas, stories, and laughter.

We also thank our families, who encouraged us and gave us the strength to keep going. We learned that working together makes everything easier and more fun.

This book is the result of our friendship, cooperation, and support from the people around us, and we are proud to share it.

7th Grade Class B – 2026
Christus Barão de Studart

The main parts of a house
are the room, the kitchen,
the bathroom, and the yard.
Four friends live there.
Lucas prefers the room,
Carol prefers the kitchen,
Bernard prefers the bathroom,
and Paula thinks
the yard is the best.

The living room is
where there is a TV

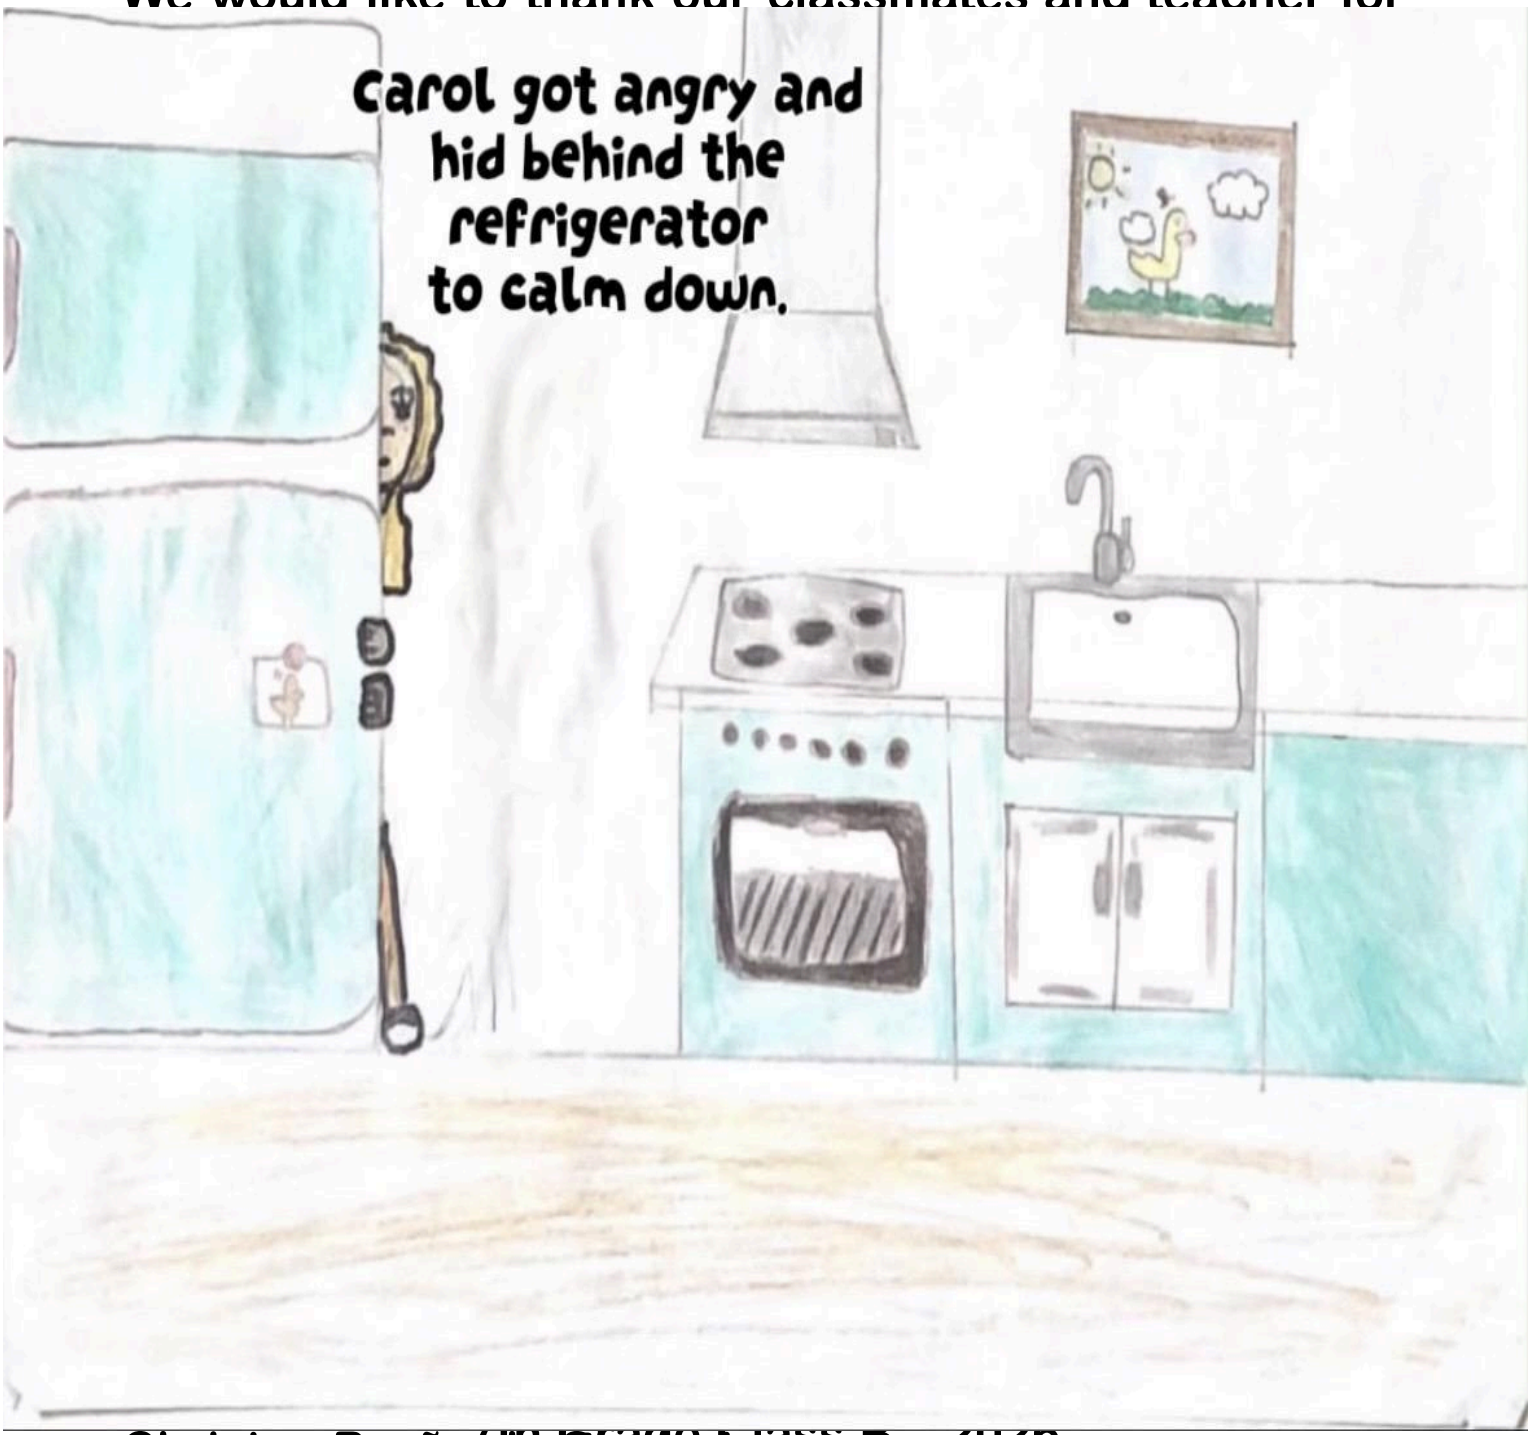

the bathroom is
where we do our necessities

the yard is where
there are plants,

and the kitchen is
where we prepare food.

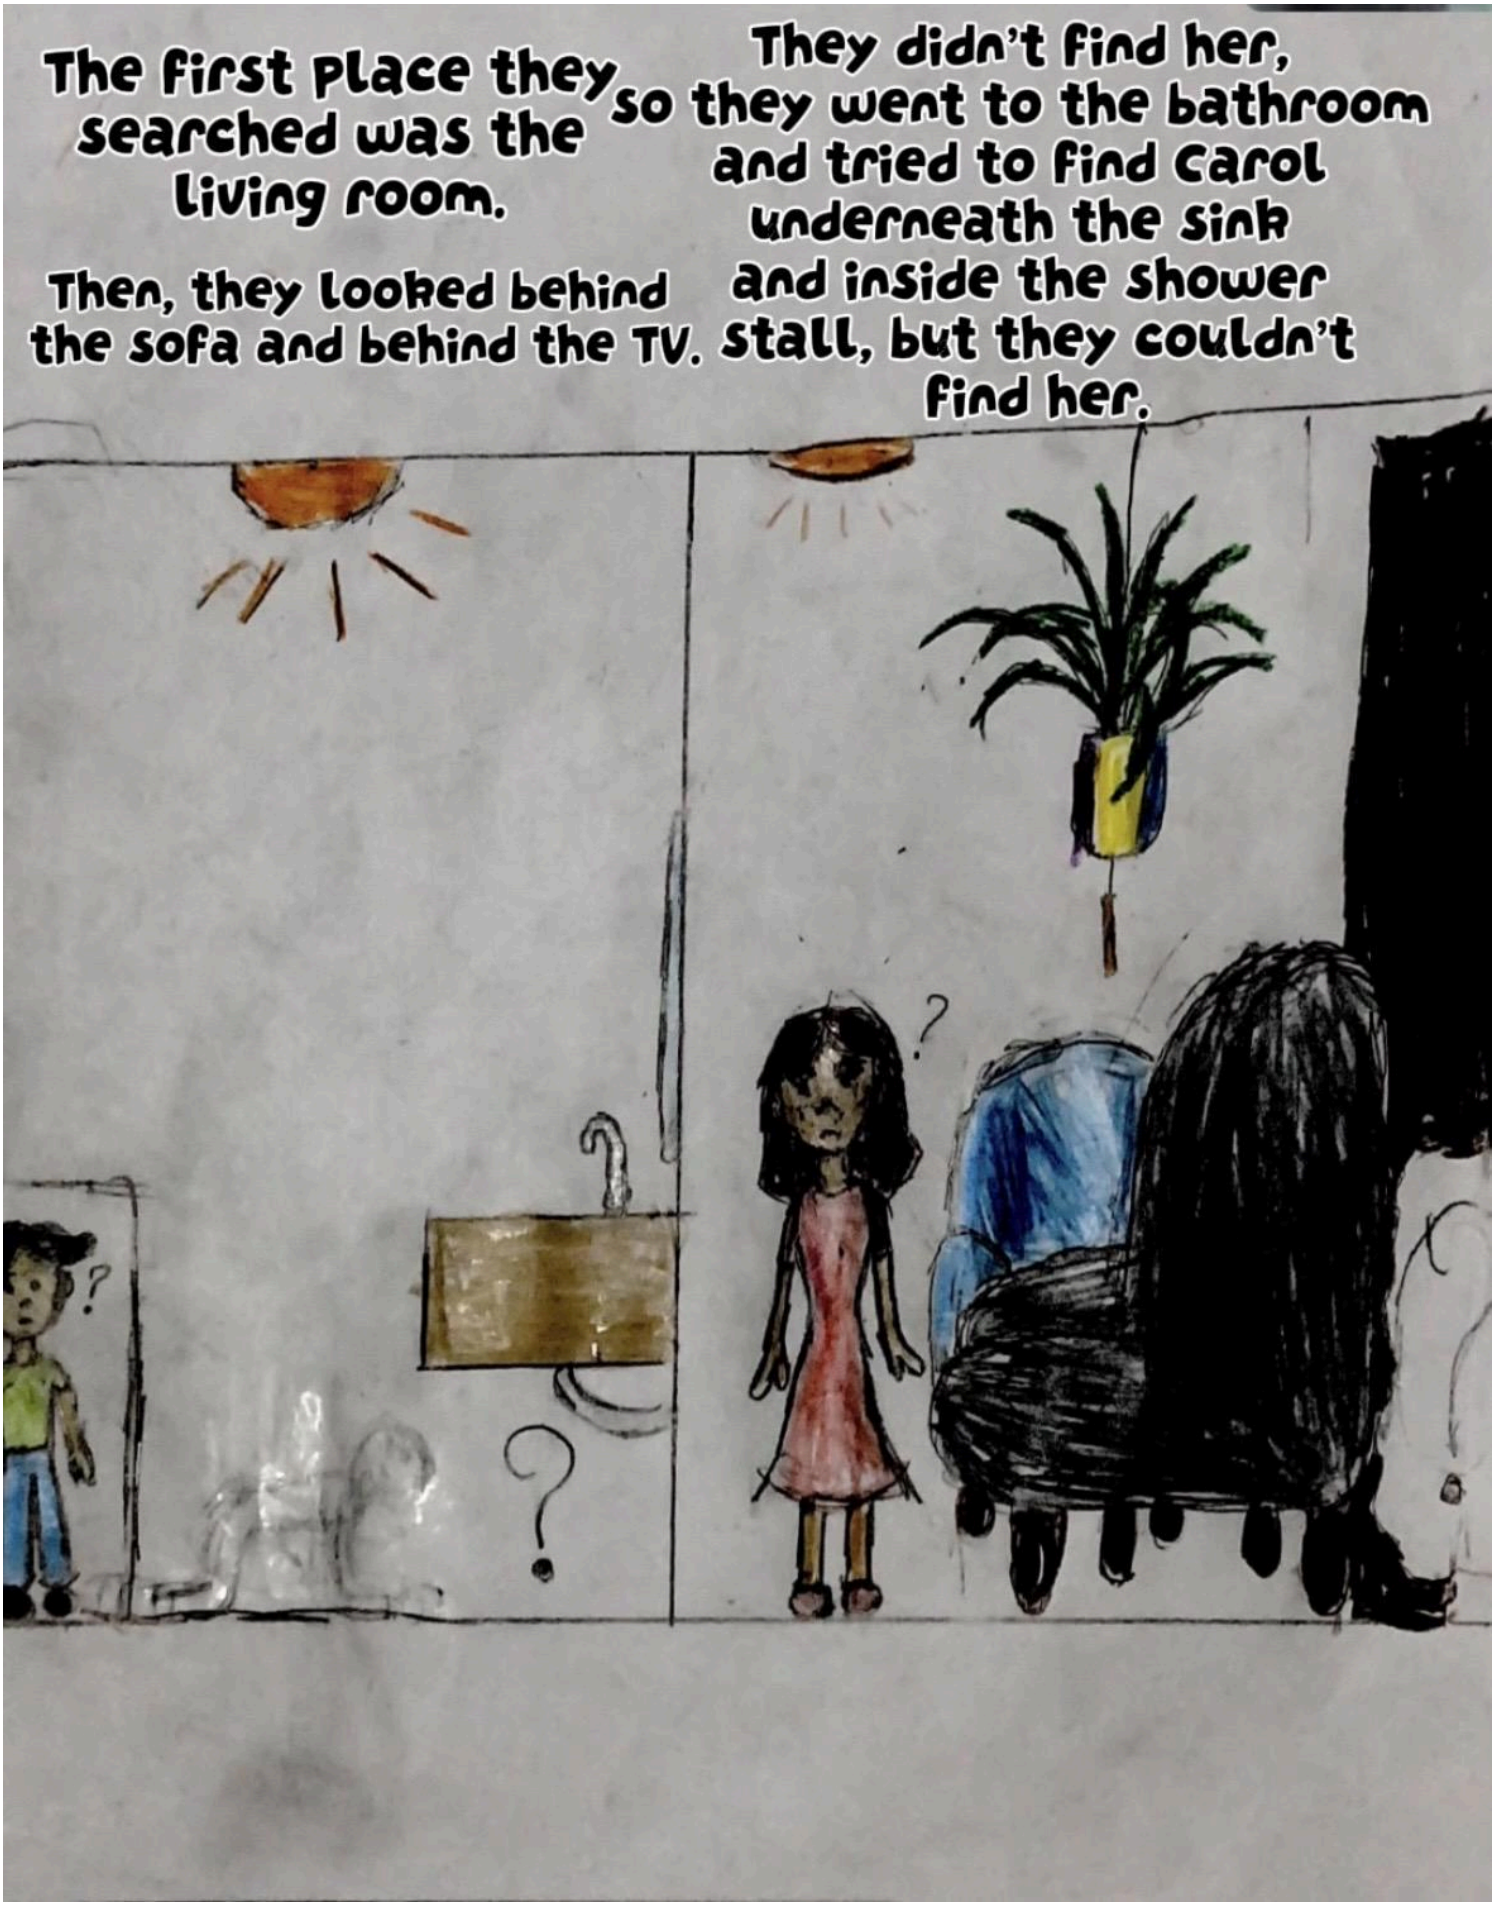

They started to discuss which was the best place in the house.
FAMILY

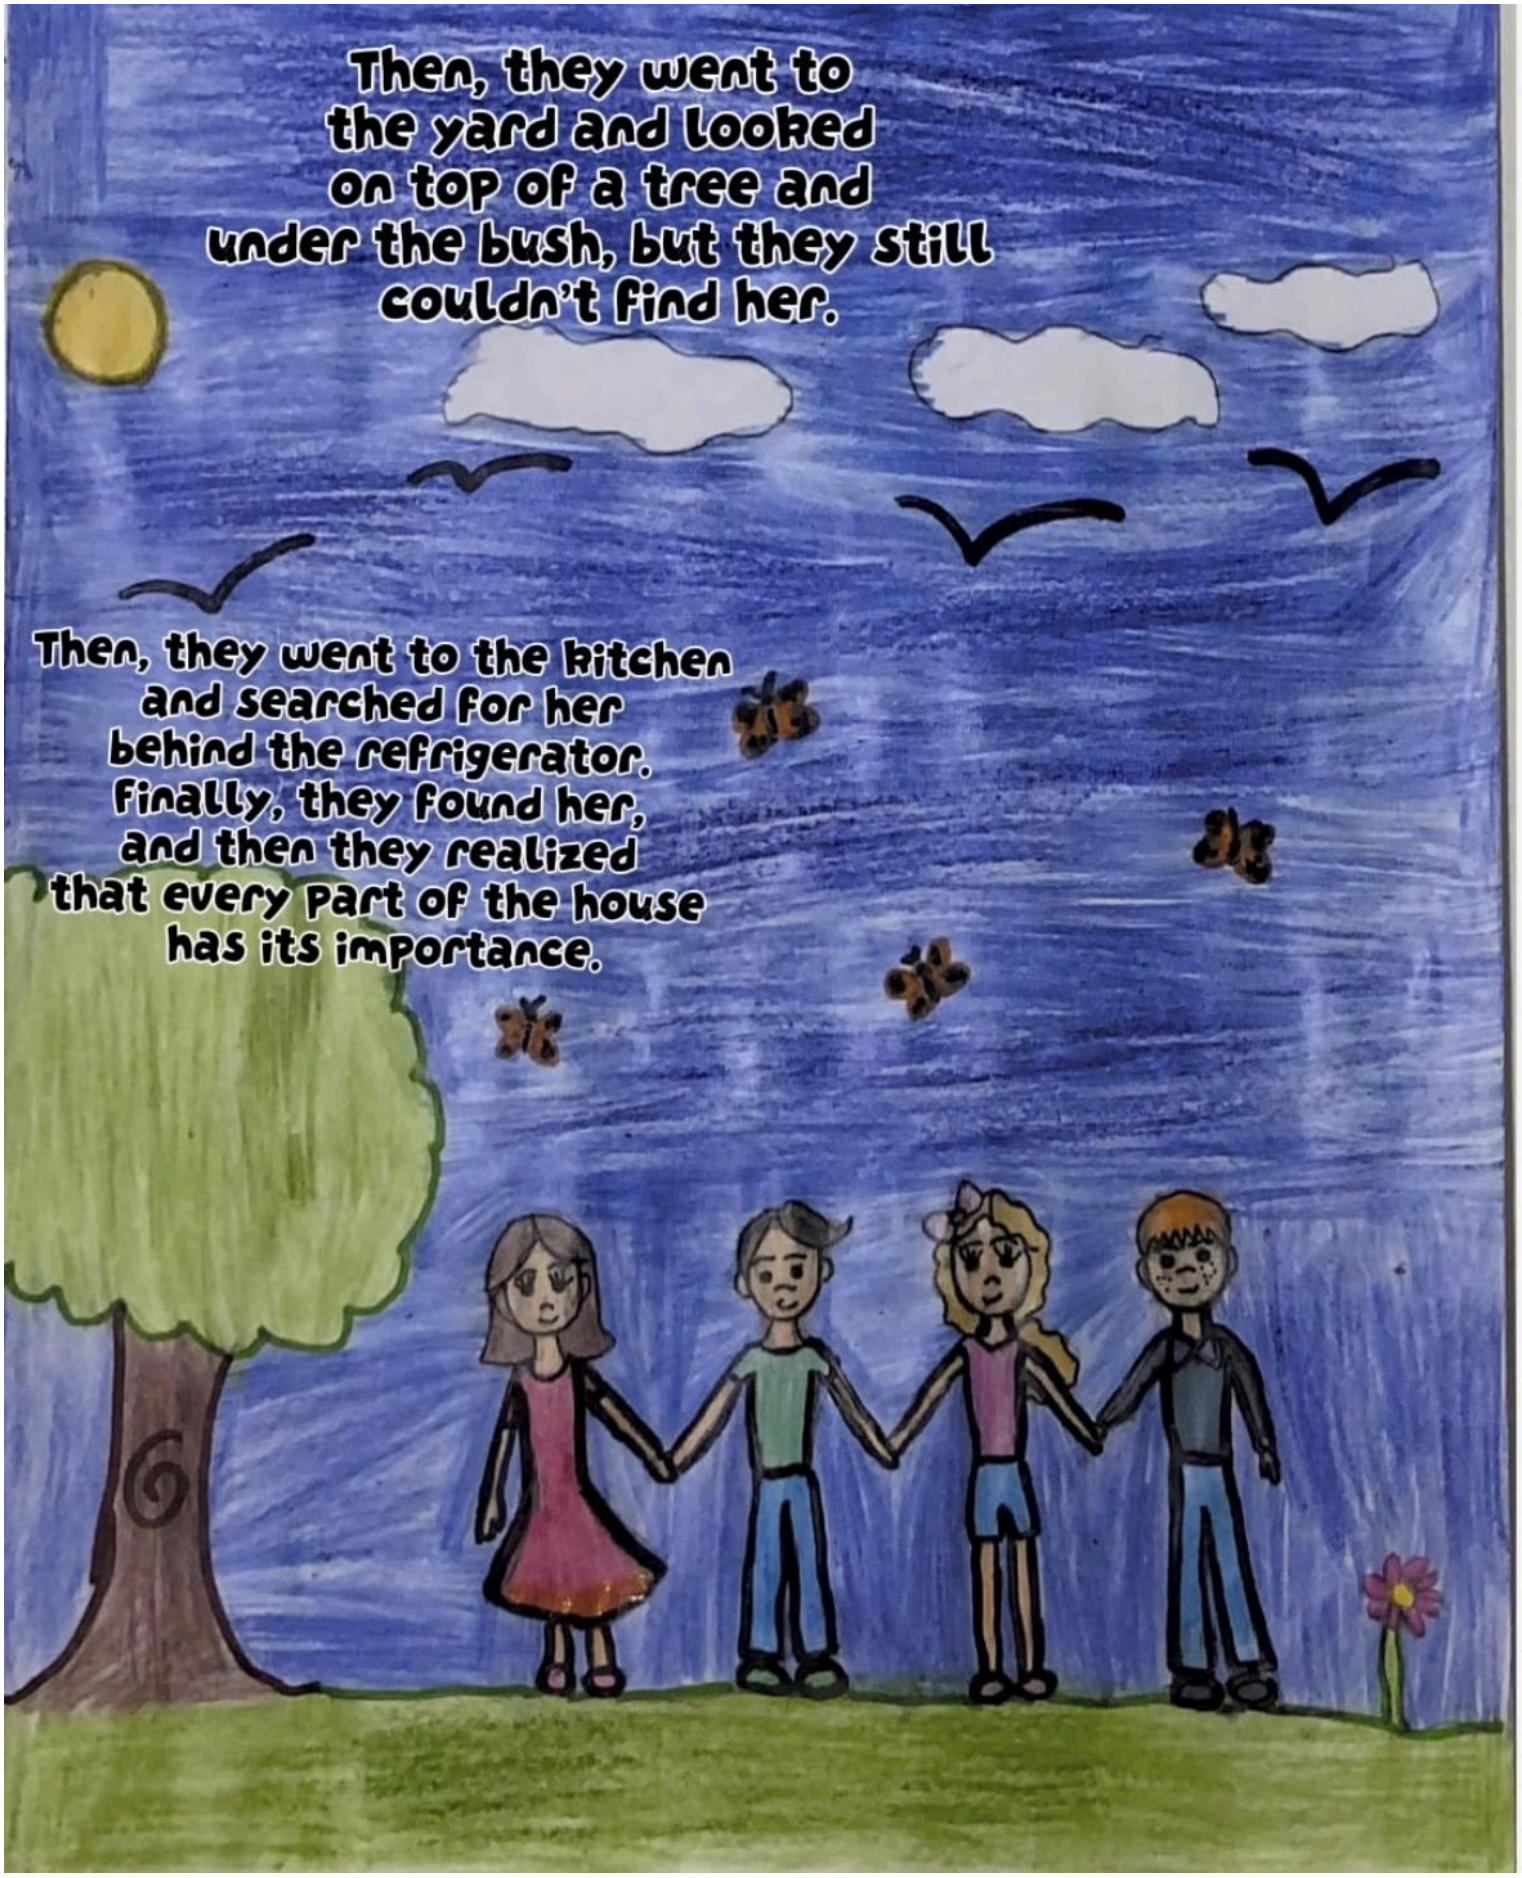

We would like to thank our classmates and teacher for

Christus Barão de Studart 7th Grade Class B – 2026

Then Bernard, Paula, and Lucas started to search for Carol.
carol!
carol!
carol!

The first place they searched was the living room.
Then, they looked behind the sofa and behind the TV.
They didn't find her, so they went to the bathroom and tried to find Carol underneath the sink and inside the shower stall, but they couldn't find her.

Then, they went to the yard and looked on top of a tree and under the bush, but they still couldn't find her.
Then, they went to the kitchen and searched for her behind the refrigerator. Finally, they found her, and then they realized that every part of the house has its importance.

CLASS BIOGRAPHY

We are the students of 7th grade B – Class of 2026, and we worked together to make a special book for children. We learned a lot during this project. Every page shows our teamwork and imagination. Our goal is to share a fun story about respect and friendship in a way that is easy to understand.

We hope that you enjoy reading it, feel happy, and learn something new. We expect that people will like our book because we made it with care and love.

Four friends argue about the parts of a house. After a small conflict, they work together to find Carol, and they realize important values for their friendship: respect for differences, unity and empathy.

Can you notice each of these values in the story? Enjoy your reading!
