# A WORLD OF

Shapes, numbers and colors

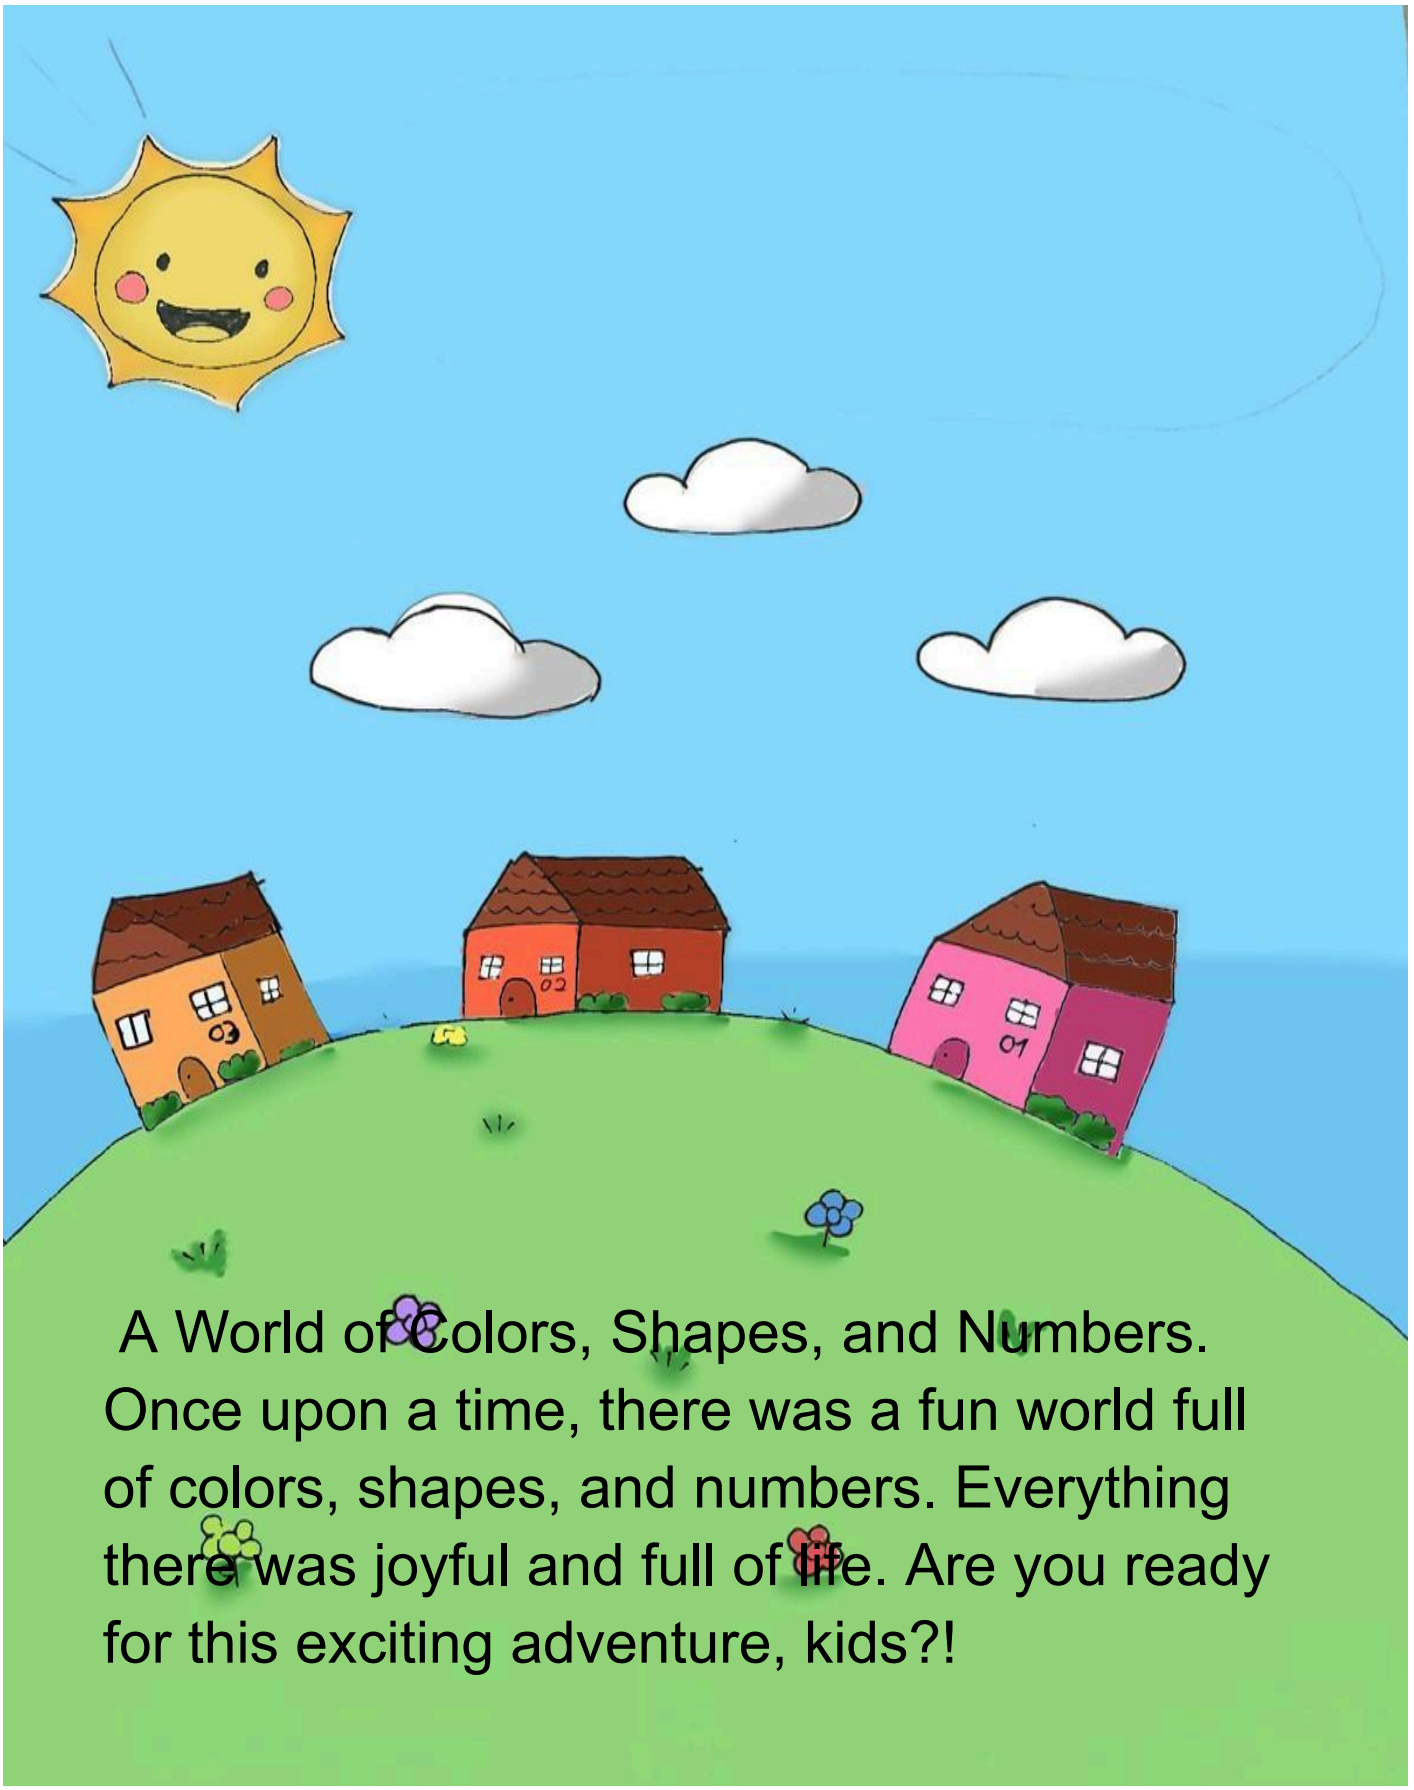

7° Olímpico-Manhã-2026

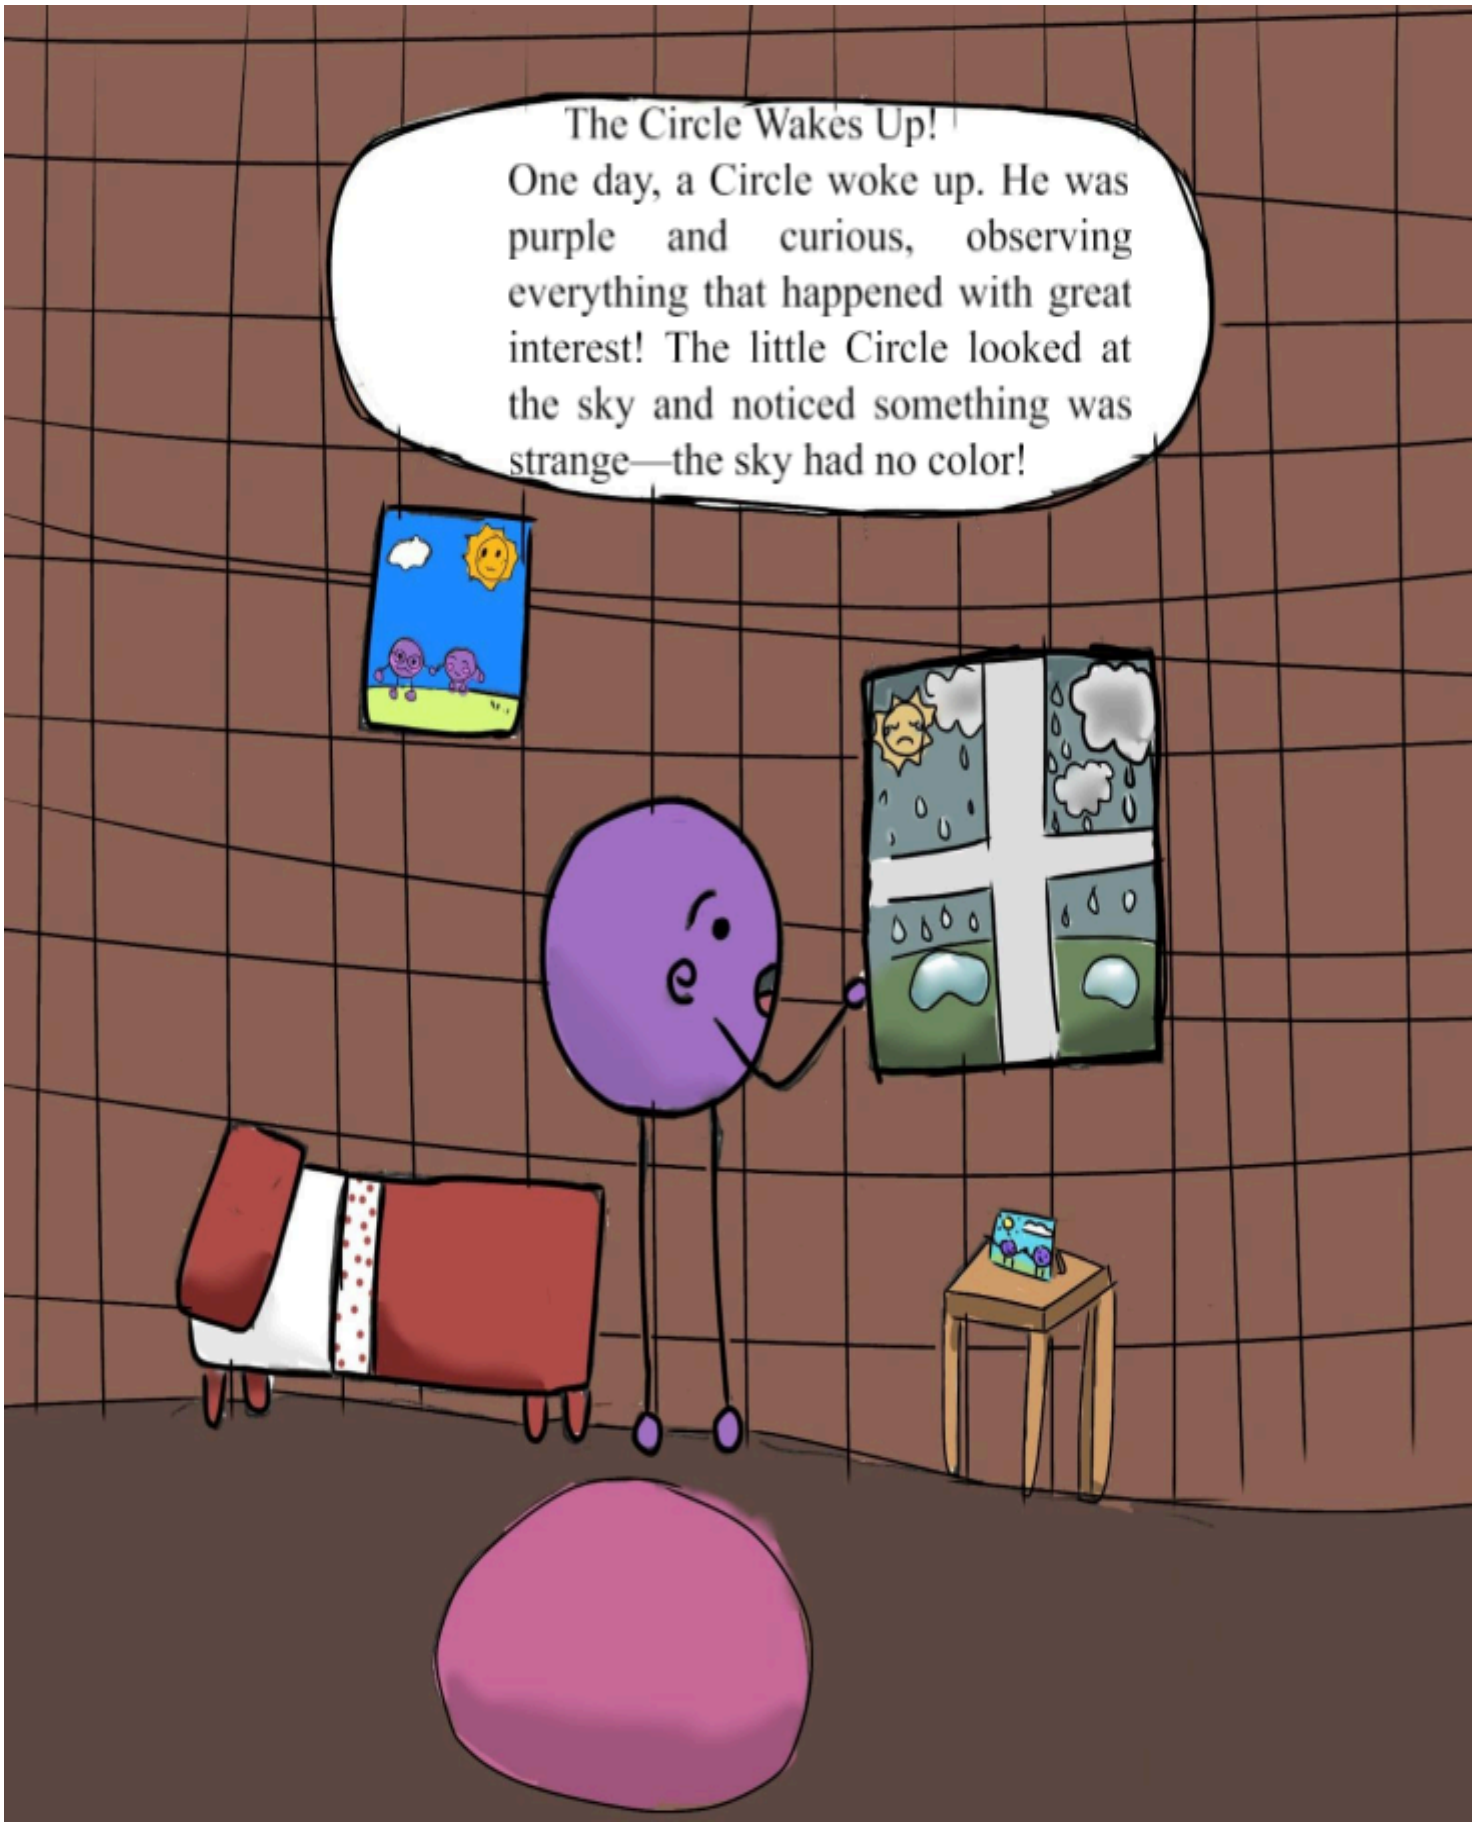

# Acknowledgements

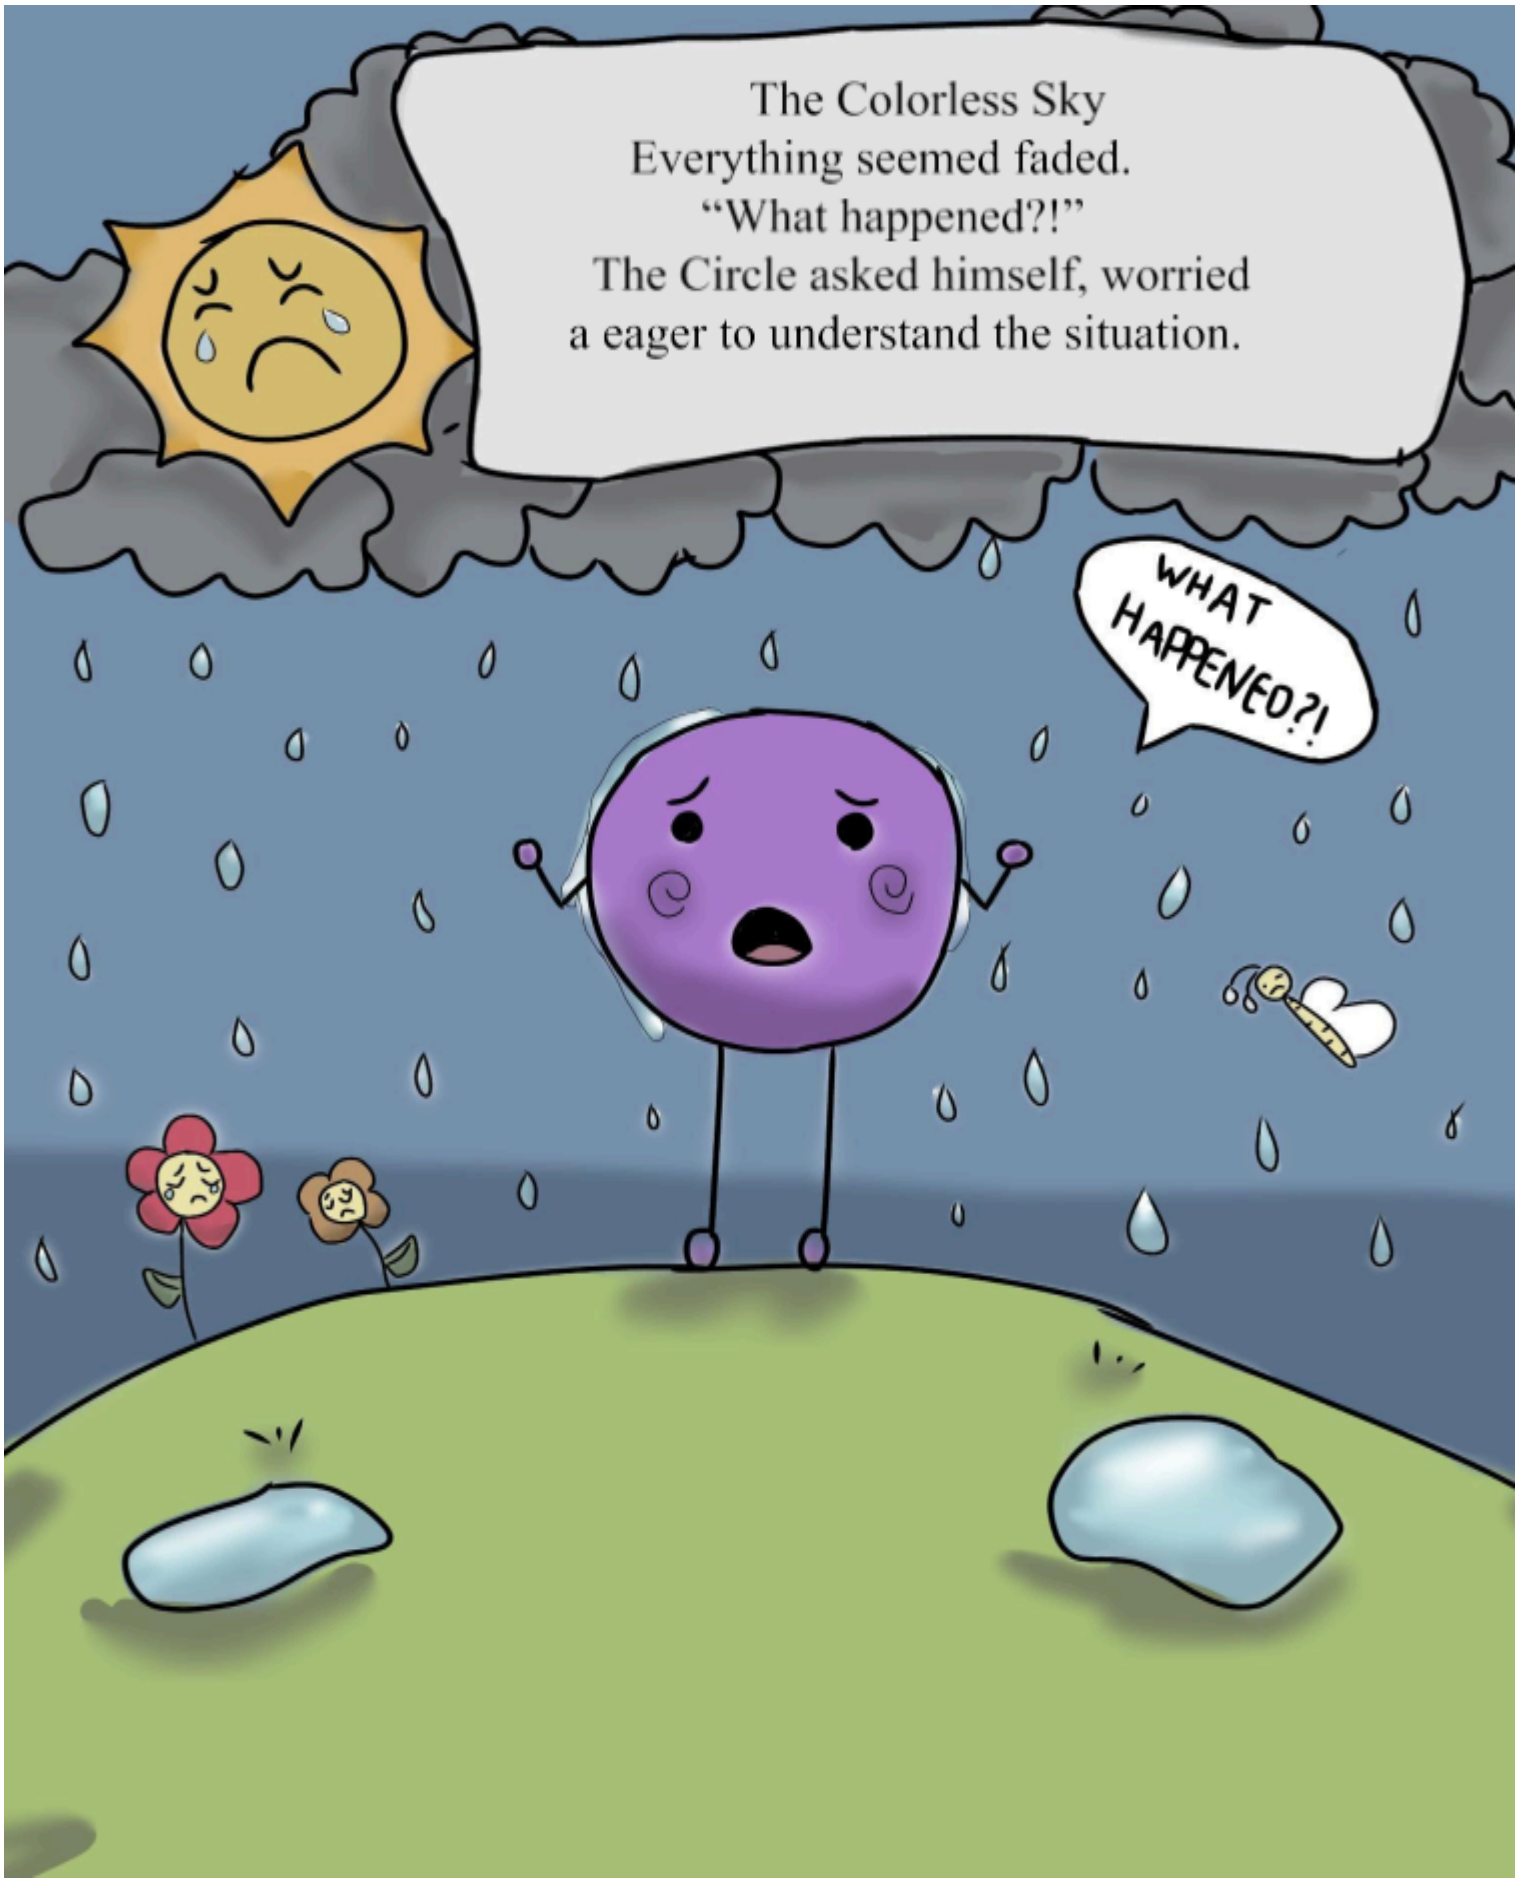

We want to thank the coordination team for their continued support, as well as the teachers who helped us on this journey. We also want to thank the publisher and our colleagues for their help and support, and we are very grateful for that. Thank you for everything.

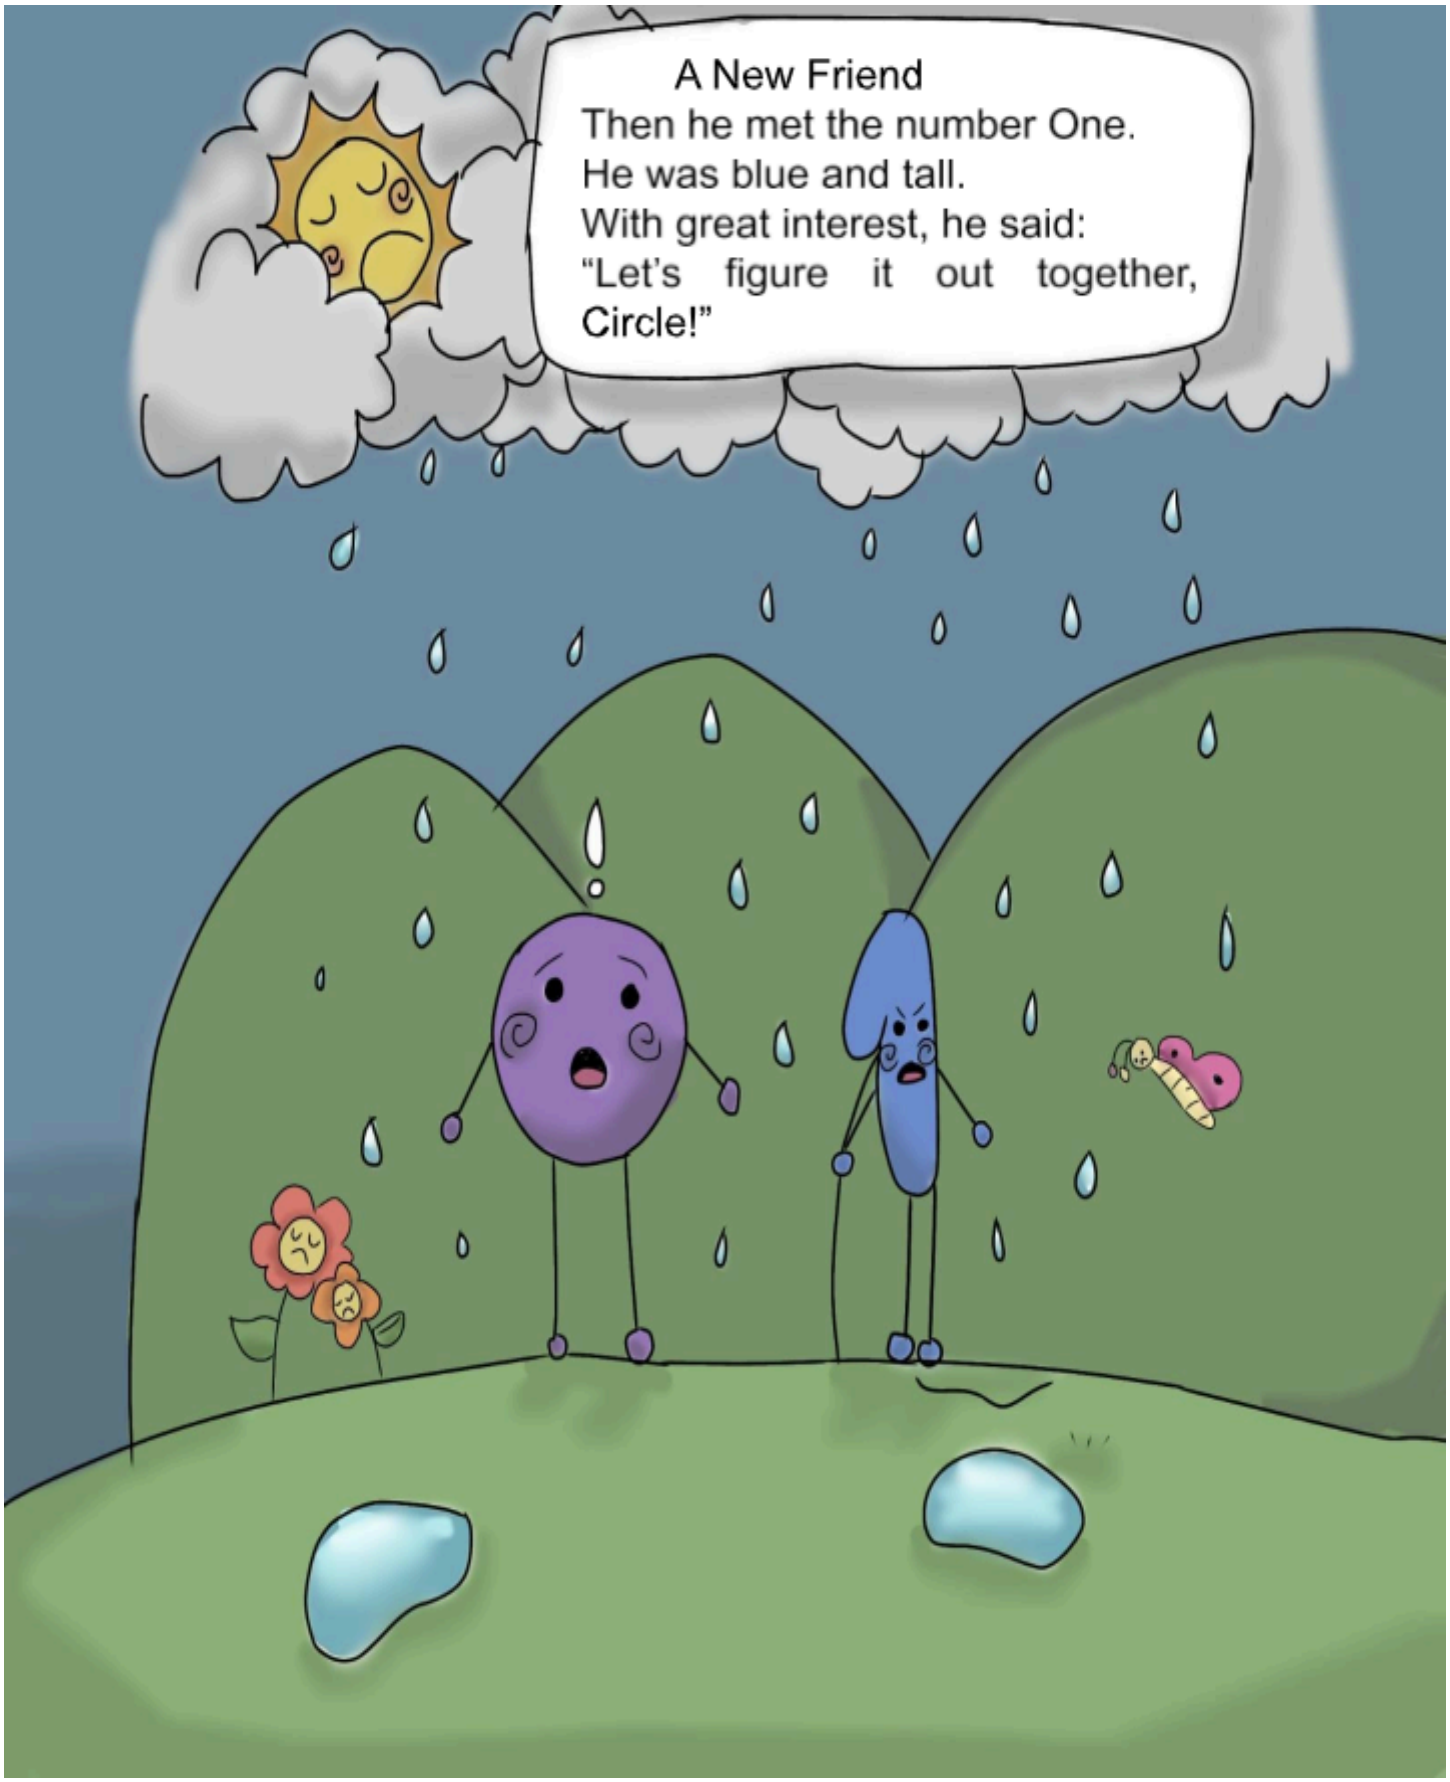

On behalf of the 7th Olympic year.

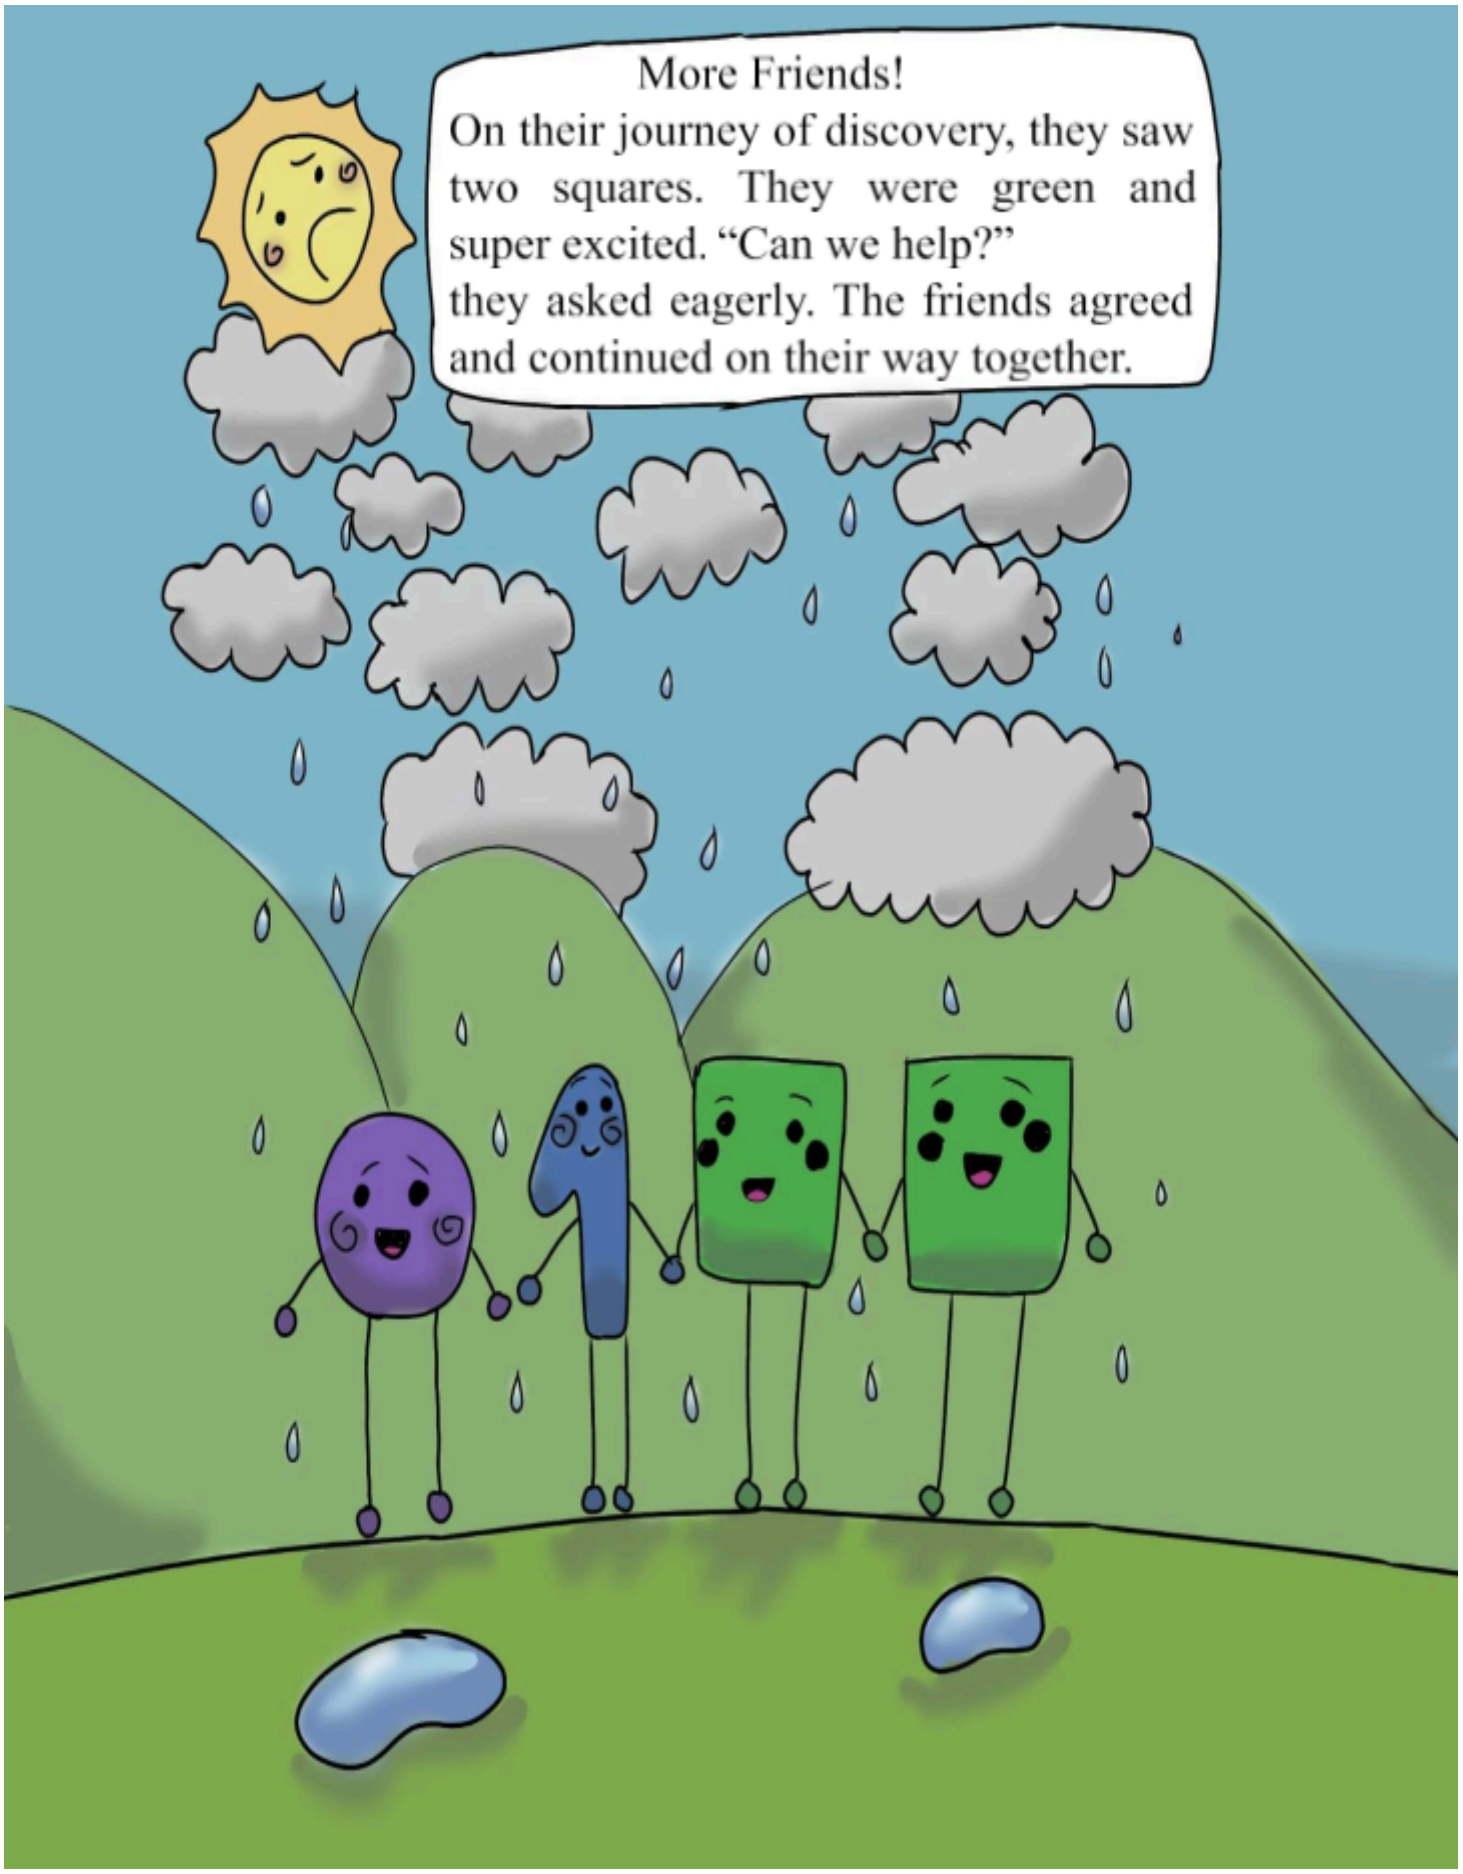

A World of Colors, Shapes, and Numbers.
Once upon a time, there was a fun world full of colors, shapes, and numbers. Everything there was joyful and full of life. Are you ready for this exciting adventure, kids?!

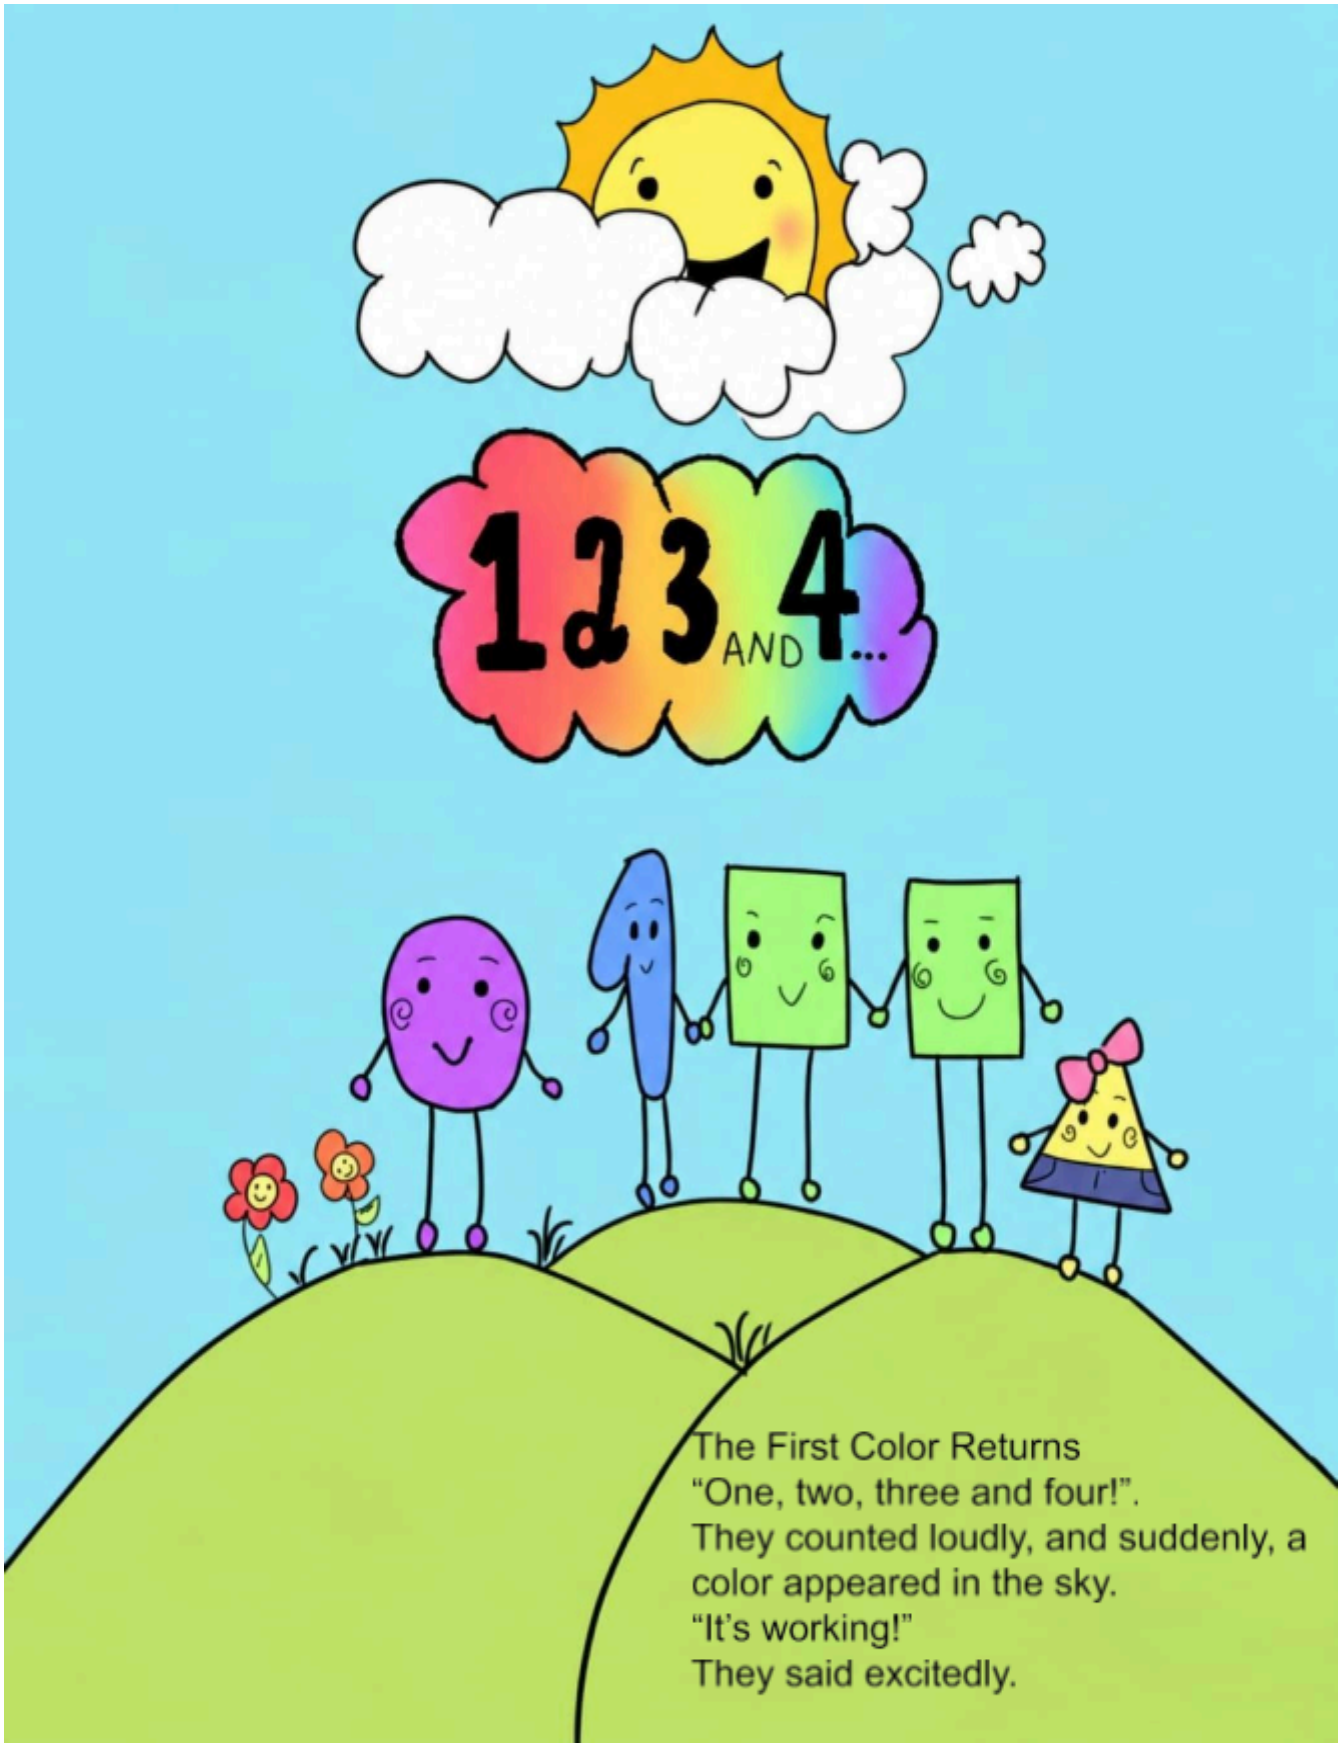

The Circle Wakes Up!
One day, a Circle woke up. He was purple and curious, observing everything that happened with great interest! The little Circle looked at the sky and noticed something was strange—the sky had no color!

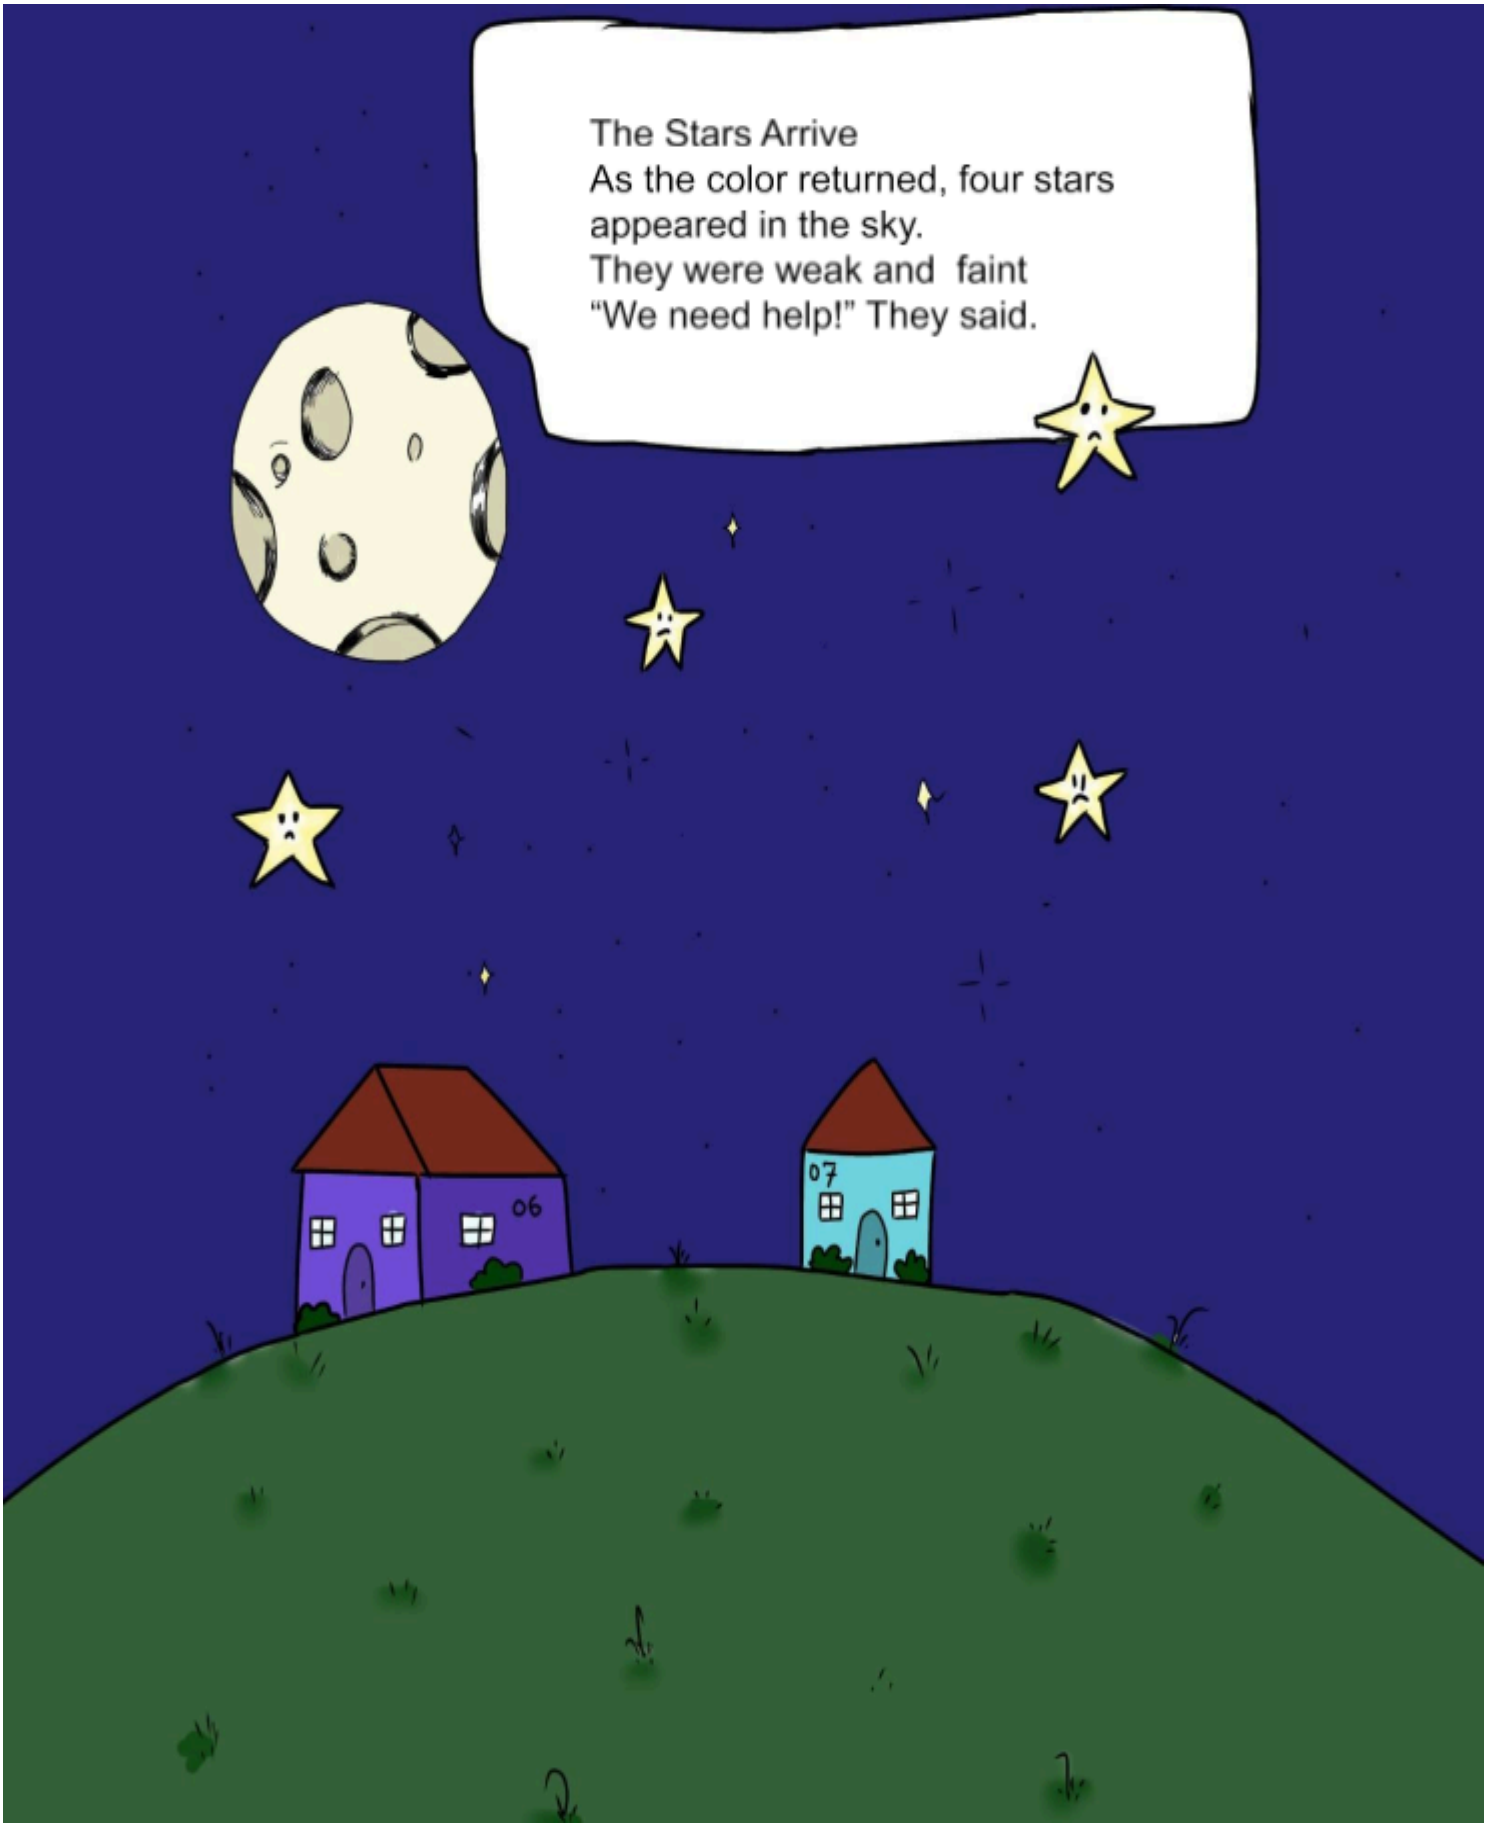

The Colorless Sky
Everything seemed faded.
"What happened?!"
The Circle asked himself, worried
a eager to understand the situation.
WHAT HAPPENED?!

A New Friend
Then he met the number One.
He was blue and tall.
With great interest, he said:
“Let’s figure it out together, Circle!”

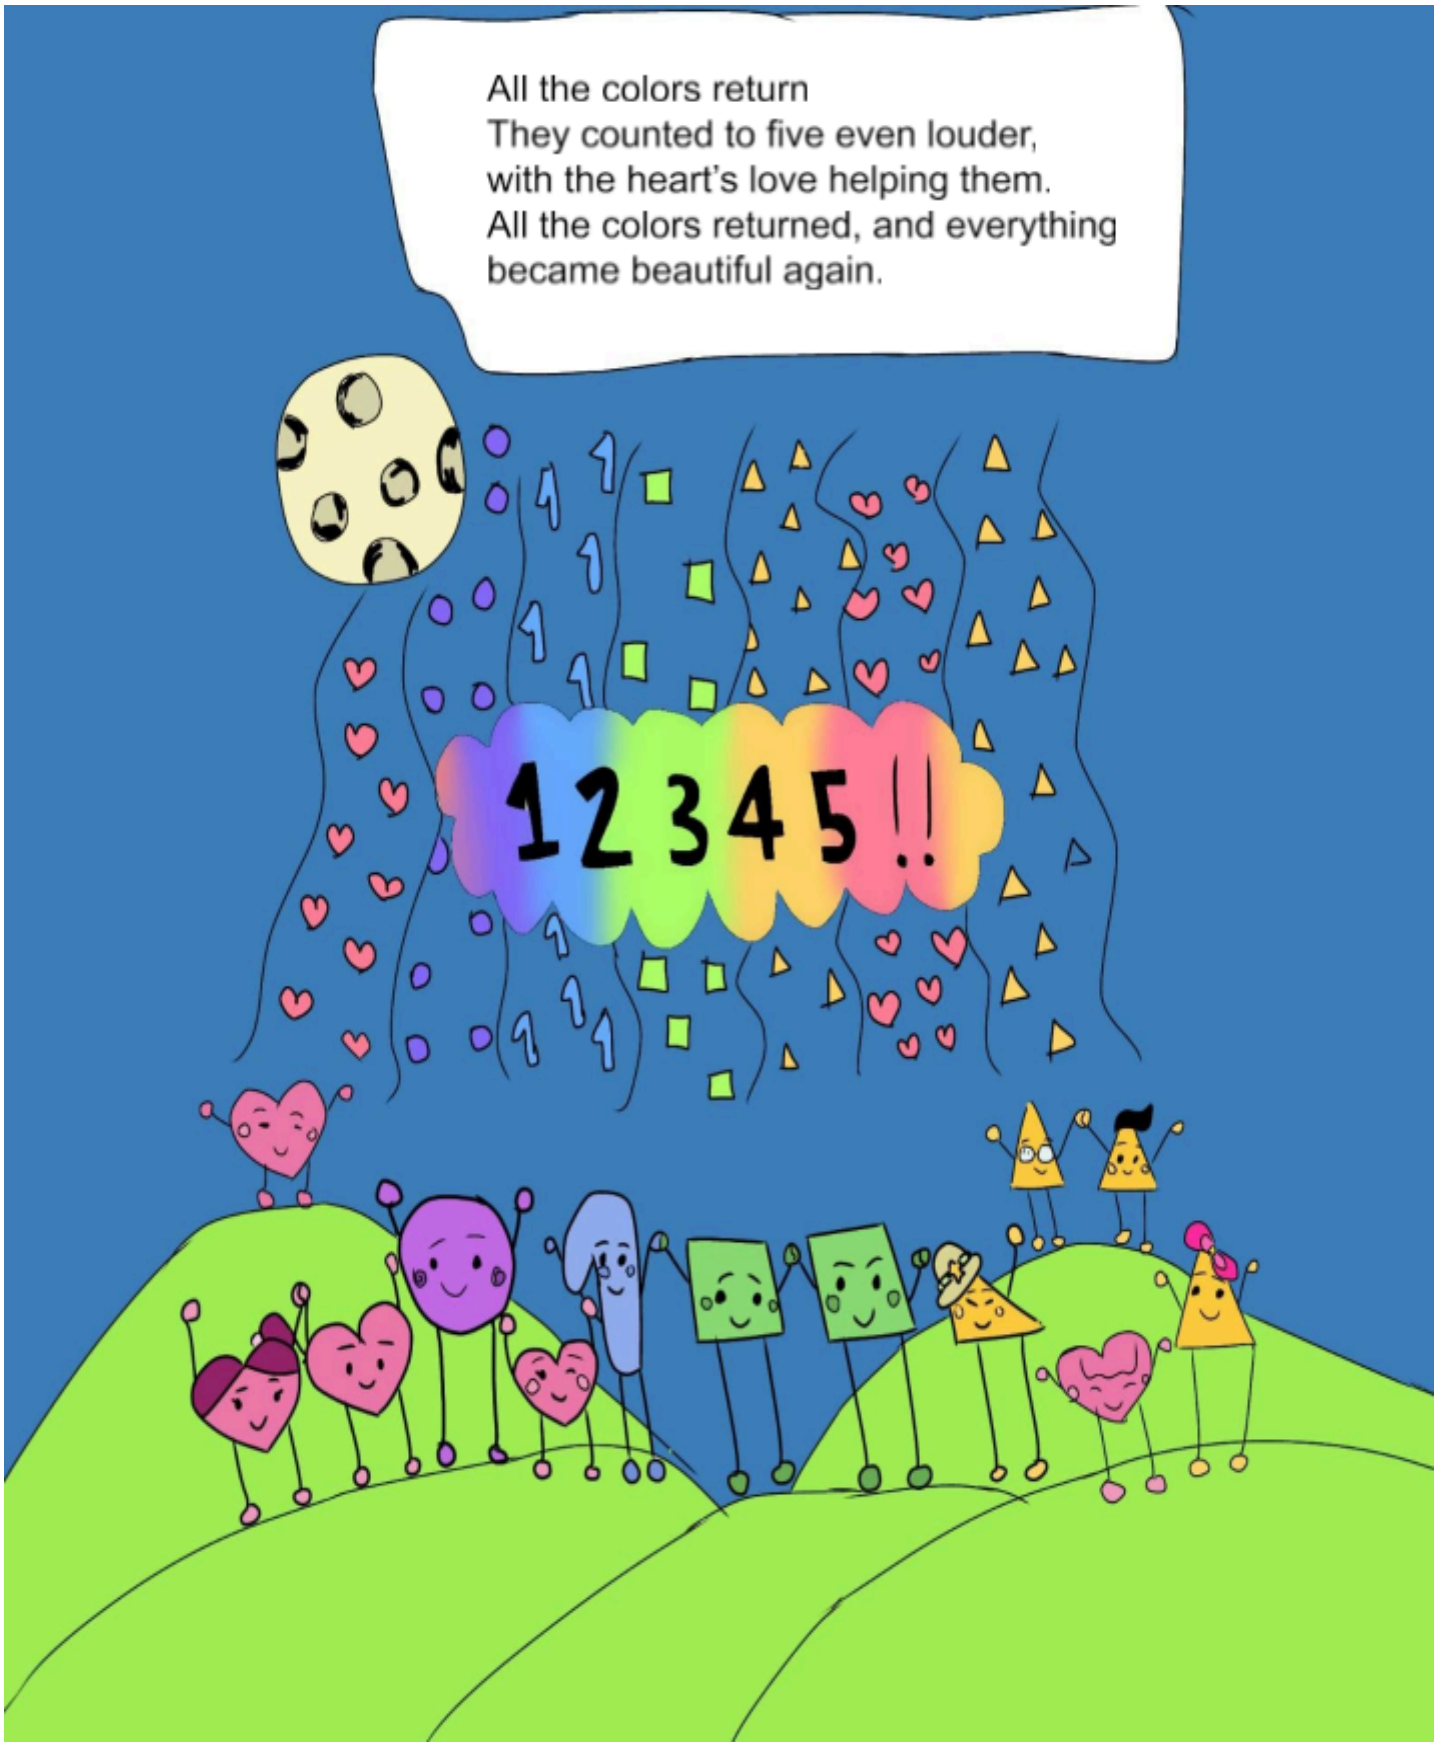

More Friends!
On their journey of discovery, they saw two squares. They were green and super excited. “Can we help?” they asked eagerly. The friends agreed and continued on their way together.

New Companions!
Further ahead, they found four yellow, smiling triangles.
"I'm sure we can help by counting all together!" they said.

1 2 3 AND 4...
The First Color Returns
“One, two, three and four!”.
They counted loudly, and suddenly, a
color appeared in the sky.
“It’s working!”
They said excitedly.

The Stars Arrive
As the color returned, four stars
appeared in the sky.
They were weak and faint
“We need help!” They said.
06
07

The Herts Help
Then, five pink hearts arrived.
“Let’s help with love!” They Said
The stars began to shine brightly.
WE'RE GOING TO HELP WITH LOVE

All the colors return
They counted to five even louder,
with the heart's love helping them.
All the colors returned, and everything
became beautiful again.
12345!!

Mission accomplished!
The sky was blue and bright, the grass green and full of life, the sun strong, and at night, the stars were sparkling.
MISSION ACCOMPLISHED!!!

In this story,the purple circle meets the number one and also some geometric shapes. One day, something unexpected happens to all the characters, and throughout the story, they find a solution with harmony; they all manage to solve this problem.

# BIOGRAPHY

The 7th grade Olympic class is a supportive group; they are very close-knit people who set themselves a new adventure every day, and in doing so, we create bonds with everyone. We enjoy learning and offer support when needed. We love our teachers and coordinators; they give us so much affection and love, which is the most rewarding part. We love talking amongst ourselves, and this reinforces our way of being: loving, respectful, and above all, very intelligent.
