# ACKNOWLEDGEMENTS

We want to thank everyone who helped us make this book. We are thankful to our teachers for teaching us, helping us with our ideas, and cheering us on. We also thank our Headteacher and Coordinators for supporting our project and allowing us to create something together. We are especially grateful to our parents and families for their care, help, and support. We also want to thank our classmates for working as a team, sharing ideas, and making this book fun and special. We are very happy with what we created together!

*In a far-away place, there lived a little girl named Livia. She's very playful and loves to play on her grandparents' farm, which she's visiting today.*

*After an hour of traveling by car, Livia arrived at the farm and greeted her grandparents. Then, she ran to the farm to see the animals.*

*Livia arrived at the pigsty and saw a pink animal with its tail raised. Her grandma said it was a little pig. After playing with it, her grandpa said they were going to meet other animals.*

*He called Livia over to meet a yellow animal that had an orange beak and was a baby. She asked her grandmother, "What animal is it?" and her grandmother said it was a baby chicken. After Livia played with the animal, they went to have lunch.*

*After lunch, her grandma took Livia to see a very different animal: a black and white animal called a cow. Her grandmother said that's where they get their milk from.*

*After the cow, she went to meet an animal that was all fluffy, covered in white wool, and went "baa". Her grandma said it's called a sheep, and she's very calm and loves head pats.*

*After the sheep, she went to meet a furry animal with very big ears. Her grandma said it's called a rabbit, and he loves to hop around and eat carrots.*

*After the rabbit, she went to meet the last animal. He's very big and Livia rode on him. It's called a horse, and he is very calm and loves kisses.*

*When Livia finished seeing the animals, she went back home to take a shower. After that, she went to bed to learn more the next day.*

# CLASS BIOGRAPHY

We are the 7th Grade B class, a tight-knit group that gets bigger every year. We are partners, supporting and helping each other always, especially with our studies. We are passionate, creative, funny, and full of personality. We learn together, have special moments, and make everyday more fun. We are different, but we are united, and we are always there for each other. This makes our class a special place where everyone can learn, have fun, and grow.

Livia visits her grandparents' farm and has a fun day meeting different farm animals. She sees a pig, a baby chicken, a cow, a sheep, a rabbit, and a horse. She learns something new about each animal, plays with them, and enjoys spending time with her grandparents. At the end of the day, Livia goes home, takes a shower, and goes to bed, excited to learn more the next day.
