ANNE AND THE ZOO ANIMALS.

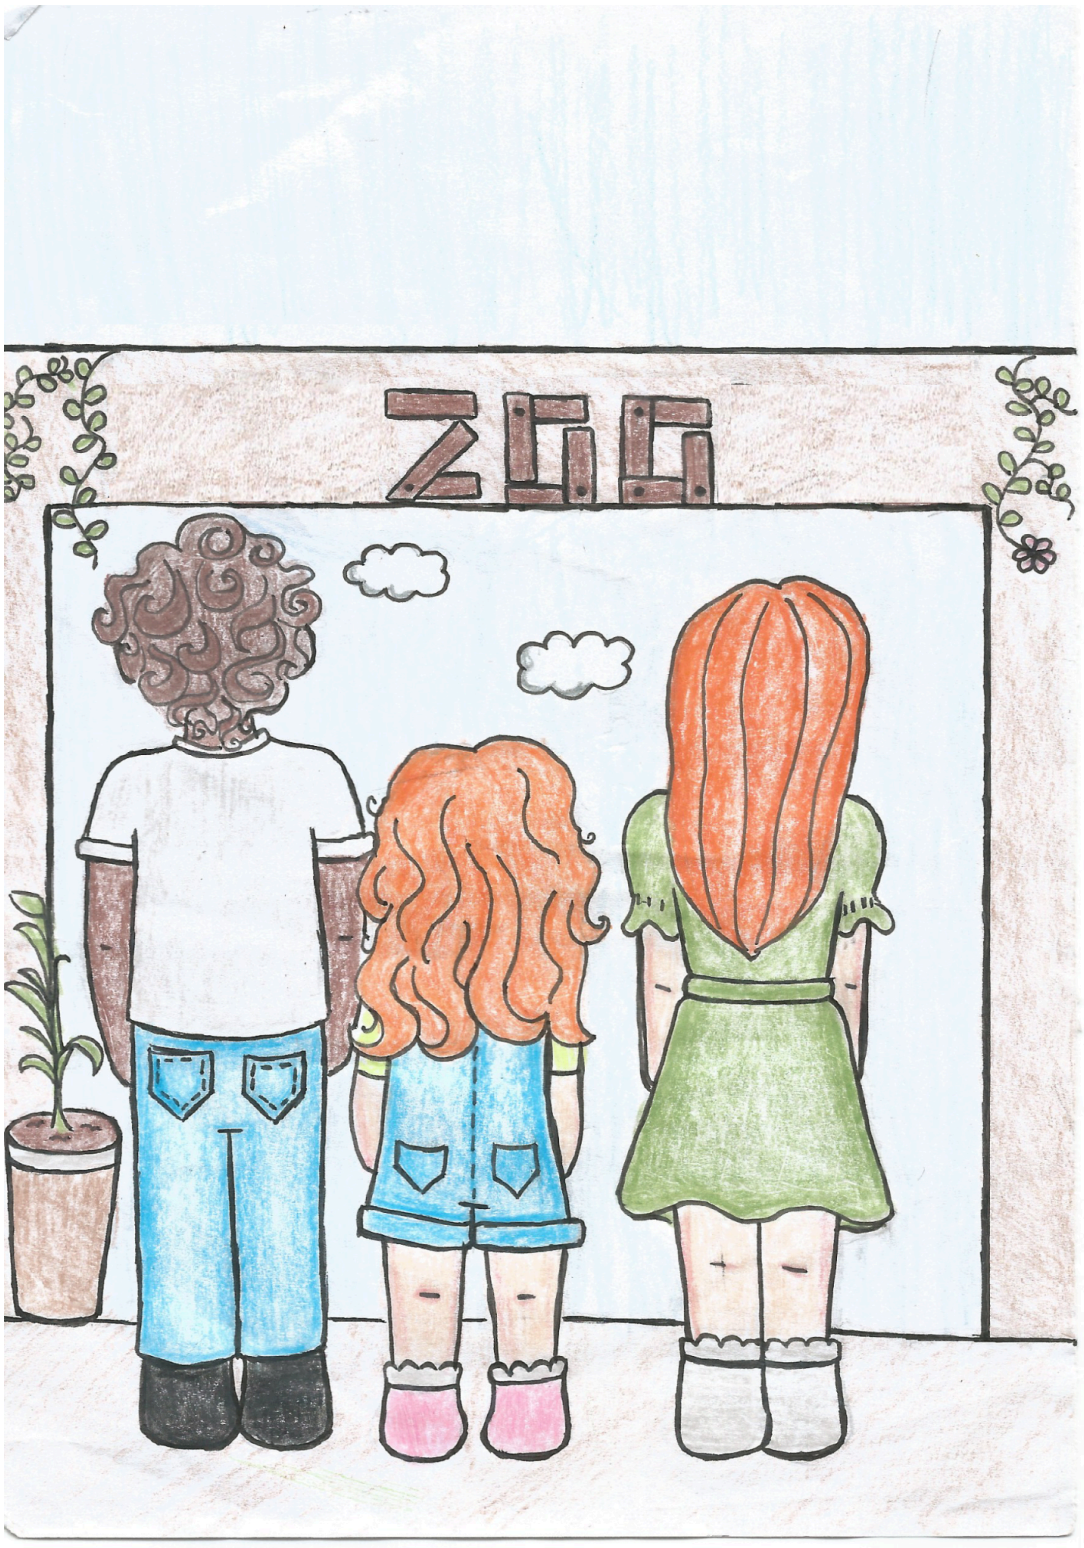

7TH GRADE OLYMPIC CLASS, MORNING SHIFT, CHRISTUS SUL.

ACKNOWLEDGMENTS

All of us in the class are so thankful for the help and support of our families, teachers, and friends! We sincerely hope you enjoy reading this book as much as we enjoyed making it!

Anne, a very curious girl, was talking to her friend about animals. Then she realized she didn't have a favorite animal.

So, she asked her parents to go to the zoo.

Anne went to the lion's den first. He goes ROAAR!
He loves meat and has a beautiful mane.

The lions are known as the kings of the savanna, and some animals are afraid of them.

After that, she went to the elephant's enclosure. He goes TRUMPET!

The elephants have big ears and a long trunk.

They are very large and friendly animals, and like to eat fruits and grass.

Then, she went to the snake's area. The snake goes HISS!

Snakes crawl and eat small animals, like rats.

Next, Anne went to visit the zebras' area. The zebras go NEIGH! They are fast and very energetic.

Zebras also have black and white stripes. Anne found the stripes very fun and different.

Then, Anne went to visit the giraffe's area.
The giraffe goes CHOMP CHOMP!

They have very beautiful yellow fur with brown dots.They love to eat leaves.

After that, she visited the monkey in his tree.
“He’s a funny animal and he loves bananas”, she said.

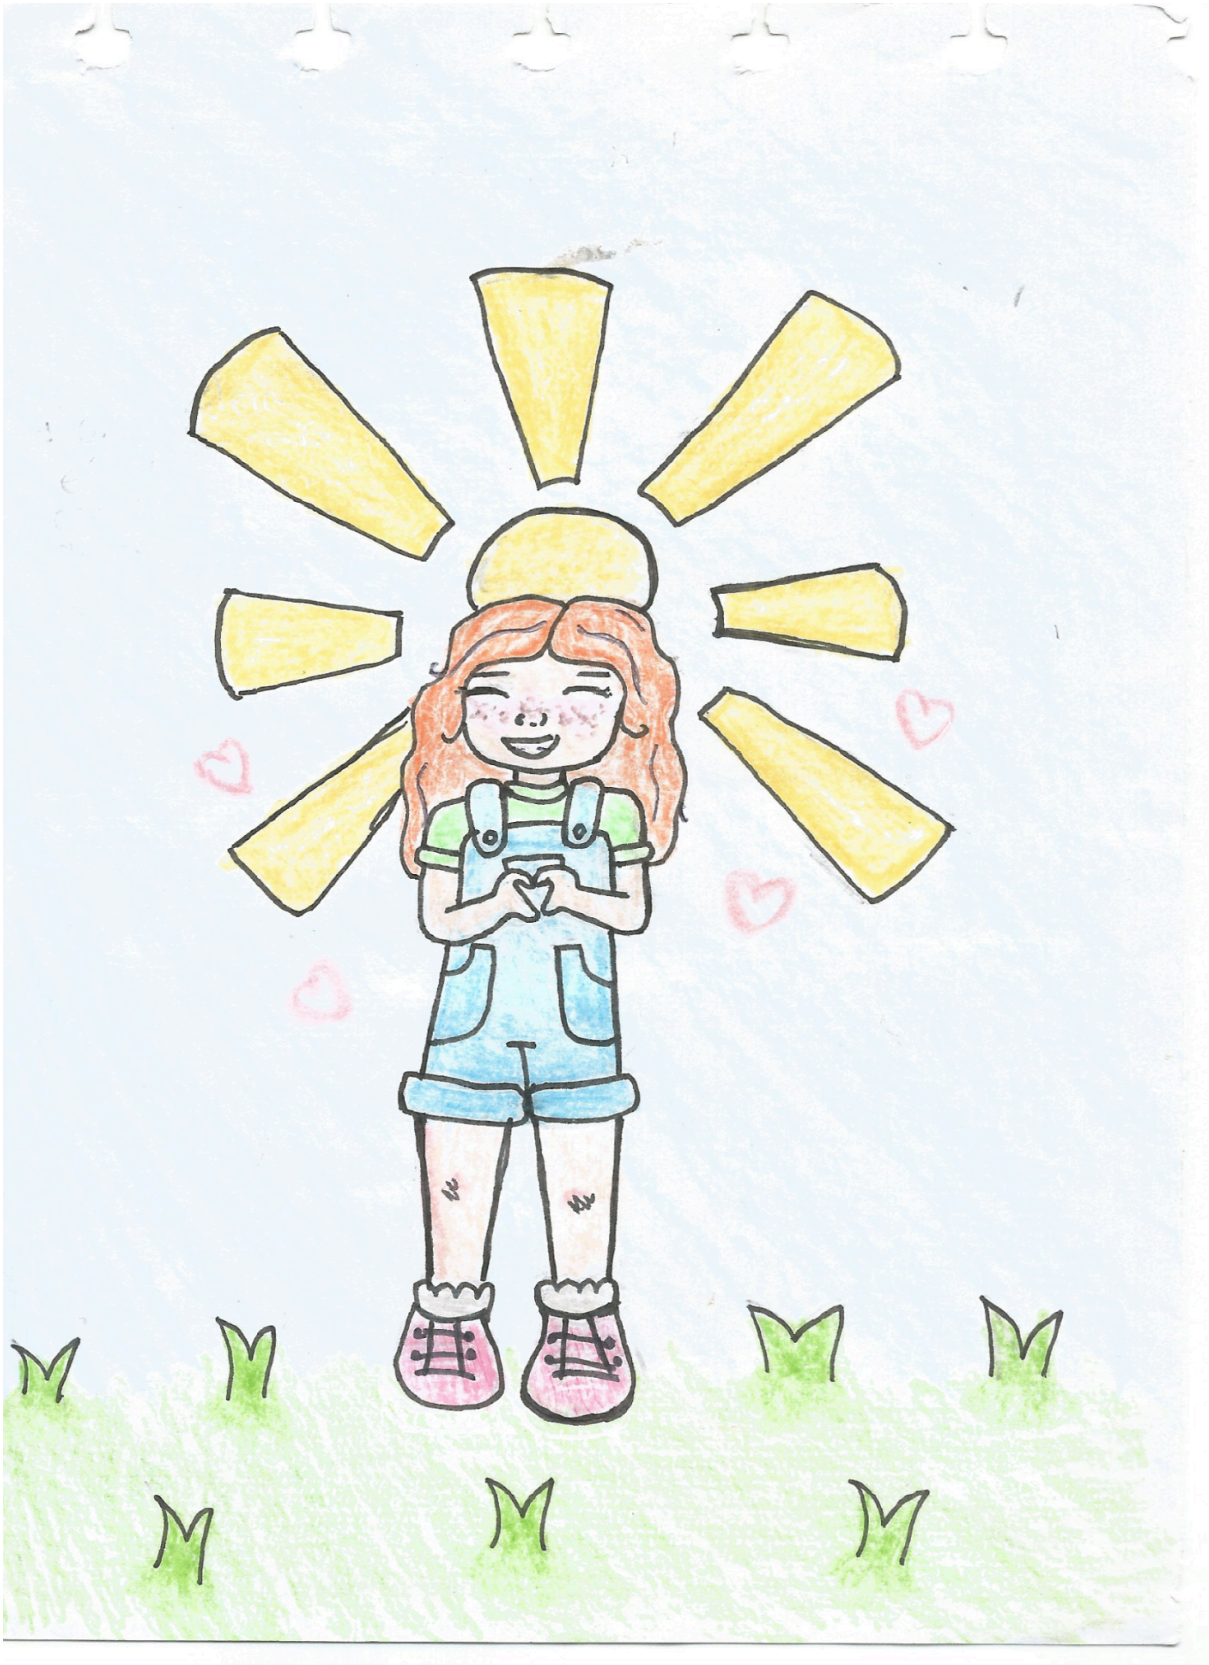

He goes OOH OOH AH AH!

Anne visited the pond before going home.
It's a calm and nice pond full of ducks

The ducks go QUACK! They're very friendly animals who love swimming.

Finally, she decides that she loves all the animals and wants to visit the zoo again!
