78. The text mentions a copyright lawsuit in which an AI company was accused of using illegally downloaded books to train their LLMs without permission of the authors. The outcome of this lawsuit was that

A) the AI company had to make a billionaire settlement.
B) the pending payment can still be halted.
C) the judge was reluctant to recognize the copyright issues.
D) the company is fighting back against the judge's rule.

Assunto: Interpretação de Texto - Skimming (Busca por Informações Explícitas)

No quarto parágrafo (linhas 18-19), o texto informa que a empresa chegou a um acordo judicial e que a compensação financeira de US$1,5 bilhão recebeu aprovação definitiva de um juiz em São Francisco (*"The company settled after the judge's ruling last year. This month, the US$1.5-billion settlement was given final approval by a judge in San Francisco, sending the online discourse into a fever pitch."*). As demais alternativas sugerem a continuidade da disputa ou a possibilidade de suspensão do pagamento, e não o desfecho (*outcome*) da ação, como se pede no comando.
